"Who is responsible for this catastrophe unfolding over our heads? We should have the right to breathe the very air of our planet without endangering our health. It is our birthright. The chemtrails spray program is an unspeakable crime against humanity, an unspeakable crime against the glorious natural world. The ecology of our planet is an exquisite and finely balanced system that has taken nature billions of years to develop. Who are these arrogant madmen who have taken it upon themselves to tinker so crudely with the delicate environmental machinery of our planetary home?"

LIFE EXPECTANCY DROPS TO 69.3 YEARS IN THE USA

HOW MUCH IS 8 YEARS OF YOUR LIFE WORTH? In 2003 life expectancy in the USA was 77.6 years. The drop to 69.3 years since 2003, a drop of over 8 years is startling information. This period of time just happens to coincide with a time when there has been non-stop spraying of chemtrails coast to coast on an almost daily basis. There is plenty of scientific research proving that any increase in airborne particulates causes a corresponding increase in the death rate of the exposed population so in my opinion the chemtrails are a glaringly obvious factor in this significant drop in expected life span.

JUST LOOK UP! CHEMTRAILS OVER THE AMERICAN SOUTHWEST

The Weather Liars: Source: Diane Harvey / Rense.com

"It has been an astonishing transformation, of the utmost significance. But we never, ever, hear or read about it in the news. Over the last few years, the skies over the American southwest have changed beyond recognition. The famous dazzling blue sky of yesteryear has become, as often as not, sickly pale ugly sludge. This is as shocking a difference as if the surrounding landscape had slowly turned black, while the human inhabitants remained bizarrely oblivious. There are still clear days, but these are numerically becoming the exception. And this has happened nearly without public comment, in a part of the world where sunny bright blue skies most of the year have been the rule for centuries. But the slow sure rip in the elemental fabric of our lives..."

ALPENHORN NEWS LINKS ILLNESS WITH YELLOW CHEM CLOUDS

Excerpt from story by Laurie A. Kelly

"Community after community continues to report that hundreds of people are becoming ill at the same time... following on the heels of heavy chemtrail activity... three physicians, all of whom asked not to be identified, have reported an increasing number of patients being seen for similar illness since December. Persistent hacking coughs, upper respiratory and intestinal distress, pneumonia, extreme fatigue, lethargy, dizziness, disorientation, splitting headaches, elevated arthritis symptoms and unexplainable nosebleeds are just a few of the symptoms these doctors have described. These doctors have said they are seeing larger numbers of patients with these complaints during or within days after the times that the physicians themselves have observed a larger number of chemtrails in the skies above mountain communities."

FINALLY, a serious article about chemtrails in a major city newspaper. A quote from the Las Vegas Tribune Chemtrail article by Marcus Dalton: "Especially disturbing for residents of heavily chemtrailed communities like Las Vegas is a "chemtrail sickness" associated with heavy spray days leaving many stricken people complaining of the "flu" and acute allergic reactions months after the flu season has ended. Upper and lower respiratory and gastrointestinal ailments remain unusually high in many spray areas, along with debilitating fatigue - and something even more worrying. What's going on? Thomas is convinced that we are under "deliberate biological attack" by agents known only to top military and government officials responsible for permitting continuing over-flights by unmarked spray aircraft."

"And even in the face of government denials, environmental laboratories have begun to identify an extremely toxic component of the spray drifting over cities and countryside. Several independent sources claim that samples of fallout from the lingering smoke trails have been independently tested and found to contain ethylene dibromide (EDB)." Since the Chemtrails begin appearing over Las Vegas residents have experienced a huge surge in respiratory problems and asthma.

An extremely hazardous pesticide, EDB was banned by the US Environmental Protection Agency in 1983... The 1991 Chemical Hazards of the Workplace warns that repeated exposure to low levels of ethylene dibromide results in "general weakness, vomiting, diarrhea, chest pains, coughing and shortness of breath, upper respiratory tract irritation" and respiratory failure.

CHEMTRAIL SICKNESS IN SPRAGUE RIVER & KLAMATH FALLS, OREGON www.rense.com

Dear Jeff,

I believe that they have added some new ingredient into the chemtrails recently. The reason that I believe this is because since the last spraying everyone here is sick. Not just in Sprague River, but also in Klamath Falls, Oregon and surrounding areas.

The symptoms are: runny noses, congested, sore, burning throats, dizzy, sick to the stomach, and a tinglie feeling all over the body. I believe that the spray is also affecting the animals. People are telling me that they go out to feed their animals, and find a horse dead here, a cow there, a pig dead... some goats have labored breathing every time they spray... Why aren't the animal rights people getting upset over this abuse?

PATIENTS HIGHLY CONTAMINATED, DOC BLAMES CHEMTRAILS

An Arizona Doctor speaks out after finding high levels of Barium contamination in his patients: "... patients are coming in with frequent headaches, sinus congestion, asthma and ear infections... I attribute this to the chemicals which our government is spraying in OUR air!

...the "hair analysis" labs which I run on some of my patients are all indicating HIGH levels of Barium. My own hair analysis indicated high Barium levels... high levels of barium in our hair means either barium is being stored from digestion or the hair is being contaminated by an outside source [barium from chemtrails]. I am quite concerned with this violation of our environment by a government that denies it is occurring... One only has to step outside and look up at the sky to see our tax dollars at work"

LAB TESTS OF AIR GRAB SHOW MASSIVE CONTAMINATION

An extensive air grab through a Hepa filter was done by Arizona Sky Watch for the purpose of testing for airborne chemtrail contaminants. The results are horrifying, showing massive contamination of our atmosphere. Inhaling these high amounts of metal particulates is very dangerous. Aluminum affects the brain and central nervous system. Barium lowers the immune system and can cause dose related paralysis including paralysis of the heart muscles, ranging from mild to total quadriplegia. All of these metal nano-particles are hazardous to the lungs and can cause a condition similar to Asbestiosis or Silicosis. ARTICLE AT RENSE.COM

MORGELLONS AIRBORNE FIBER & BLOOD A MATCH

Clifford Carnicom's newest research shows that the airborne chemtrails fibers and the fibers found in the tissues of a patient with advanced Morgellons Disease match.

Additionally the unusual airborne blood cell samples have been found to match the unusual blood cells in Morgellons infected individuals. The implications of these findings are enormous. Have we all been exposed to Morgellons via the chemtrails? The Morgellons disease pathogen appears to be an artificially created pathogen, a combination of biology and nanotechnology.

How would this pathogen get into the chemtrails in the first place? It seems to me that this happenstance could have only occurred deliberately. This unspeakably horrible information leads to thoughts of deliberate widespread sickening and murdering of the human population using a high tech artificially created pathogen being dispersed through the ongoing chemtrails.

MORGELLONS & CHEMTRAILS

One aspect of the chemtrail story is becoming more and more a story about the spread of Morgellons Disease. The bizarre, unique fibers that have been found in the bodies of the Morgellons infected have been matched to fibers found in the chemtrail fallout and in rain drops. This suggests that anybody who breathes the air may have been exposed to this disease. Researcher Clifford Carnicom has recently reported that blood abnormalities that he associates with chemtrail infection are being found in just about everyone he is testing whether or not they show the visible signs of having a Morgellons infection

THE EARTH BEFORE THE ERA OF CHEMTRAILS

This image showing a relatively pristine earth was taken during the Apollo Missions between 1969 and 1972. The earth floats like a beautiful blue and white marble in space with no haze or luminosity covering it. Compare it with the next image.

EARTH'S HAZY NEW LOOK

The entire global atmosphere has been polluted by the aerosol spray operations. So much so that the change is clearly visible in recent sat images. The earth is enveloped in a haze. It is also noteworthy that global warming has accelerated. Of course no mention of chemtrails is ever made officially in respect to global warming. However it is

obvious from sat photos that the trillions and trillions of nano sized metal particulates have created a hazy blanket surrounding the globe. These particulates act to reflect back warmth and energy that would normally dissipate into outer space.

STRANGE DAYS, STRANGE SKIES

YOU ARE NOW BREATHING ETHYLENE DIBROMIDE, NANO-PARTICULATES OF ALUMINUM AND BARIUM AND CATIONIC POLYMER FIBERS WITH UNIDENTIFIED BIOACTIVE MATERIAL:

"We the people have not been warned, advised or consulted but are certainly vulnerable to the outcomes." Lightwatcher.com "Biologic components have been reported in airborne samples that include: modified molds, desiccated red blood cells and exotic strains of bacteria"

Additionally, award winning investigative reporter, Will Thomas, has reported findings of over 300 types of virally mutated fungi in the chemtrail fall out. The Idaho Observer has reported findings of 26 metals including barium, aluminum and uranium, a variety of infectious pathogens and chemicals and drugs including sedatives in chemtrail fallout. Dr. R. Michael Castle reports the finding of cationic polymer fibers. Others have reported findings of tiny parasitic nematode eggs of some type encased in the fibers. Researcher Clifford Carnicom has reported finding chemtrails fibers that are an exact match with the bizarre fibers found in those suffering from Morgellons Disease.

Welcome to the brave new world of toxic barium skies, weather control, mind control and population control through the use of chemtrails modulated with electromagnetic frequencies generated by HAARP technology. (Disguised as cellphone towers, and other "unexplained" installations dotted around urban areas.) Our health is under attack as evidenced by the skyrocketing rates of chemtrail induced lung cancer, asthma and pulmonary/respiratory problems as well as the emergence of a new plague, Morgellons Disease, an infection with a new and unknown pathogen that is

seriously disabling and disfiguring. Over 12,000 families in the U.S. are now infected with Morgellons. I am one of the infected. Our skies are increasingly hazed over with fake barium/ aluminum particulate, ethylene dibromide chemtrail clouds. Whether in the atmosphere or in the ocean this added particulate matter is a hazard to the health of every living thing on this planet. My health and the health of my family have already been drastically affected. There is a mainstream media blackout on this subject so the only way to get the word out is by word of mouth. People are already dying because of the chemtrails. Life expectancy is down. This situation presents an immediate and serious threat to you, your family and loved ones. We must join together to stop this insane program of chemtrail spraying now. Please do what you can to help.

DR. LEONARD HOROWITZ: INTERVIEW ON CHEMTRAILS

<http://www.worldviewzmedia.net/video/dr-len-horowitz-and-medicine>

REDDEN: What about the current controversy over chemtrails – the theory that airplanes are spraying the population with some kind of chemical or biological weapon. As I understand it, a number of researchers believe that many of the contrails in the skies these days are not the normal contrails formed by high-flying jets, but are actually trails of chemical or biological agents which spread out and then fall on the earth.

HOROWITZ: I believe the chemtrails are responsible for a chemical intoxication of the public, which would then cause a general immune suppression, low grade to high grade, depending on exposure. An immune dysfunction, which would then allow people to become susceptible to opportunistic infections, such as mycoplasma and other opportunistic infections.

REDDEN: So you believe that high-flying planes are, in fact, spraying something on the population, that the theory is real?

HOROWITZ: There's no question that it's real. There's no doubt about that. I first began to investigate chemtrails when some were sprayed over my home in Northern Idaho. I found out from one of the chief toxicologists at the CDC that ethylene dibromide was being

added to the jet fuel. Now EDB is a known human chemical carcinogen that was removed from unleaded gas because of its cancer causing effects. Now suddenly it has appeared in the jet fuel that apparently high-altitude military aircraft are emitting.

REDDEN: Why has ethylene dibromide been added to jet fuel?

HOROWITZ: When you examine who owns the fuel, who are the fuel company directors, suddenly you enter into the realm of the Rockefeller family, the royal families, Standard Oil and British Petroleum. And what are their other agendas? Documents show that historically, they have funded eugenics, genocide, depopulation, family planning...

HOROWITZ: You're looking at decision-makers who have, for whatever reasons, decided to put this toxic waste into jet fuels for human exposure, what ultimately is going to be human exposure. And it just so happens that these same people have put a lot of money into reducing world populations.

REDDEN: As I understand it, this is not just an American epidemic, but it's gone across Europe.

HOROWITZ: That's right. I've got colleagues over there, I've got colleagues in the Bahamas, Bermuda, Toronto, British Columbia all reporting the same bizarre seeding of the atmosphere. It's horrible. What is going on is just despicable.

REDDEN: One reason I'm interested in this subject is, I personally know three people who had the exact same thing happen to them. First they came down with flu-like symptoms which didn't go away. Then the doctor said their flu had developed into a bacterial infection.

REDDEN: Then they were all given a brand new antibiotic they had never taken before and they all had serious allergic reactions. What happened to them?

HOROWITZ: OK, what you're looking at with this upper respiratory infection is that it is a multi-factoral illness. It's associated with a variety of chemical and biological co-factors. Just like with AIDS, it's not the AIDS virus that ultimately kills, it's co-factor microbes such as the mycoplasma. What you have could be described as an ideal

Russian biological cocktail. And I suppose it's called a Russian biological cocktail because the Americans most likely invented it.

What they determined would be the best biological chemical warfare approach was a combination of chemicals and biologicals, so that it would be very difficult to diagnose and then treat the illnesses.

REDDEN: A point of clarification. Are you saying that the fungus is working with the chemtrails and the antibiotic to make people sick?

HOROWITZ: Exactly. You've got somebody who's going to be chronically ill. And in the contemporary warfare arena, where experts in biological chemical warfare convene and discuss the ways that are ideal to conduct warfare today, to really take an enemy out, you don't want to kill the people. You want to produce people who are chronically ill and become dependent on the state and totally sap the resources of the country.

Dr. Leonard Horowitz is an internationally acclaimed authority on public health with a Masters Degree in Public Health and Behaviourial Sciences from Harvard and a Masters Degree in Health Ed from Tufts. He has served on the faculties of several universities including Harvard and Tufts.

THE TRIUMPH OF EVIL

"ALL THAT IS NECESSARY FOR THE TRIUMPH OF EVIL IS THAT GOOD MEN DO NOTHING." (Edmund Burke)

As I have gradually discovered the full extent and implications of what is being done to us and to our planet I have felt deep sorrow, especially for my children. I have also felt deep anger. The level of betrayal involved in the chemtrail atrocities is monstrous. My goal is not to leave readers feeling so overloaded that they shut down and are unable to take action on this subject, rather it is imperative that you do take action. "They" cannot continue to do this to us without our consent. Once you know about this issue doing nothing to stop it will be taken as tacit agreement, your willingness to accept the situation. Choosing not to act will make them all the more powerful in their endeavors. It is important that all of us unite, stand up to the

chemtrails and say NO! ENOUGH! NO MORE!

TOTAL INFORMATION FOR THEM, NO INFORMATION FOR US

The government seems to think it is perfectly ok to keep track of every book you buy or check out at the library, what websites you visit, what you buy at the grocery store, who you talk to on the phone and every other conceivable bit of information they can gather on you... but who is watching the government? Who is holding the government accountable for poisoning the air all of us must breathe? How much sense does it make that the government is snooping into every aspect of our lives under the pretext of "protecting us" yet that very same government is gravely harming us by poisoning the air we breathe?

It is not in our best interests to continue to cooperate with those that are harming us. We cooperate by remaining silent, going about our normal lives as if everything is ok (it clearly isn't), as taxpayers we cooperate by providing the money for them to continue this insane and grievous assault on humanity and on the environment.

FLUORIDE AND CHEMTRAILS IN DOCILEVILLE, USA

Fluoride was developed during WW2 by the Nazis for use as a mind control drug. Research proved that Fluoride, when given over time in small doses permanently altered the brain in ways affecting personality. Those receiving small doses of Fluoride over time became more docile, less aggressive, more easily controlled and led. I have not been able to find one reliable study that proves Fluoride actually helps prevent cavities. What I did find out was that on the average children living in communities with fluoridated water have lower IQ's. Additionally fluoridated communities have higher rates of bone and heart problems, higher rates of cancer and higher rates of neurological problems. WHY IS 60% OF THE WATER IN THE USA DELIBERATELY FLUORIDATED? WHY ARE WE ALLOWING OUR WATER TO BE FLUORIDATED?

GLOBAL PROTESTS

Websites protesting chemtrails have sprung up from almost every corner of the globe. There are hundreds of sites from Germany, France, The Netherlands, Belgium, Croatia, Poland, Nigeria, Canada,

South Africa, Russia, New Zealand, Japan, Korea, Ireland, etc. Internationally, the general consensus seems to be that the United States and its Illuminati-aligned leaders are to blame for the chemtrails mess.

I am curious about who is paying for the world-wide aerosol spraying. The estimated hourly cost of keeping each spray tanker in the air is over \$4,000. With hundreds of planes in the air 24 hours a day, seven days a week, (and this has been going on since approximately 1996-97) I'm not going to attempt to do the math on this right now but the cost must run into the trillions of dollars.

GLOBAL OUTRAGE OVER THE MESS FROM THE U.S.

Hundreds of websites worldwide have sprung up protesting the chemtrail "Mess from the U.S." Sites from Ireland, Italy, The United Kingdom, Spain, Austria, Belgium, Denmark, The Netherlands, Mexico, Brazil, Argentina, Australia, The Sudan, Canada, Iceland, Germany, Russia, The Bahamas and others have gone on record as witness to the massive and ongoing defilement of the skies by US planes spewing chemtrails into the air. Thousands of images and first hand reports have been posted by angry citizens worldwide detailing the ongoing aerial assault. Chemtrailing is clearly illegal under the Geneva conventions. Why is it being allowed?

CHEMTRAILS: ANOTHER BROTHERHOOD DEPOPULATION CONSPIRACY?

William Bramley, in his excellent book, *The Gods of Eden*, tells of Sumerian tablets that describe the process of hierarchy, of custodial government of various populations dispersed on habitable planets in the universe. The right of custodial governance is said to be an inherited right.

I think the custodians in charge of Earth have become hopelessly corrupt and I hope that somewhere in the order of things there is a court of last resort that would allow us to be free of these parasitic overlords once and for all. Send forth your pleas for release from servitude to the Great Galactic Council. Surely all the pain and suffering caused by the machinations of our Controllers can be felt pouring into the energy grid of the galaxy, damaging the very fabric of the universe.

At some level there must be a way to address the gross mismanagement, disaster, death, illness and anguish being inflicted on this planet and it's population by the corrupt and parasitic brotherhood...

CHEMTRAILS: CULLING THE "USELESS EATERS"?

FROM CONSPIRACY PLANET

"This whole chemtrail issue is related to the plan for decreasing the world population to around 450-500 million – and starting with the US first. Why? The people of the US are the only ones with even the remotest chance of stopping this..." Full text of article is at conspiracyplanet.com. AN ANONYMOUS LETTER FROM AN AIRLINE MECHANIC

As I tried to find the problem I quickly realized the extra piping and tanks were not connected to the waste disposal system, at all. I had just discovered this when another mechanic from my company showed up. It was one of the mechanics who usually works on this particular type of plane, and I happily turned the job over to him. As I was leaving I asked him about the extra equipment. He told me to "worry about my end of the plane and let him worry about his end!"

MICROBIOLOGY: A DANGEROUS PROFESSION? OVER 75 TOP MICROBIOLOGISTS DEAD OR MURDERED SINCE 2001

Over 75 of the world's top microbiologists have died since 2001 with over 40 dying during a 36 month period from approx. 2001 to 2004. Approx. 30% of these were death by murder. According to Insurance life expectancy tables the odds of so many microbiologists being murdered in such a short time is about 14 billion to one.

Additionally, a substantial number of the remaining deaths occurred under suspicious circumstances. See

BOILING FROGS

It has been said that we humans are like frogs in boiling water. Throw a frog into a pot of water that is already boiling and the frog will sense the emergency nature of the dangerous situation and attempt to jump out. Put the frog in cold water and very slowly bring the pot to a boil and the frog won't notice the dangerous situation until it is too late.

The Illuminati's idea of Population Control falls into two broad categories:

1. Limiting the size of human societies and monitoring/controlling the movement of individuals within that society, and
2. Intentionally reducing the bulk of the world's population through GENOCIDE via the introduction of population slaughter, orchestrated conflicts, and lethal bioengineered disease organisms introduced via vaccines and other means of external transmission.

<http://educate-yourself.org/nwo/populationreductionIcke.shtml>

The Illuminati's current plan to reduce the world's population was set into motion at a 1957 symposium on future world development. The astonishing 'conclusion' of this seemingly benign symposium was that over-population and excessive exploitation of the environment would result in the self- destruction of the earth by the year 2000 or shortly thereafter (Note: Illuminati front organizations for New World Order propaganda, like Cornell University, continue to "illuminate" us, to this very day, with this over-population point of view).

President Eisenhower secretly commissioned a group of scholars,

known as The JASON Society to review the conclusions of the '57 symposium. The members of the JASON Society are in fact part of a secretive Illuminati group known as the Order of the Quest. The same individuals who formed the JASON Society were also key members on the Council for Foreign Relations known as the Wise Men. (1)

Not surprisingly, the Jason Society agreed with the symposium's conclusions and drafted three proposals for Eisenhower's consideration. The three proposals were labeled Alternative 1, Alternative 2, and Alternative 3. Eisenhower rejected Alternative 1 because it involved the use of nuclear weapons. However, Eisenhower did approve the implementation of Alternative 2 and Alternative 3 (as did the Soviet Union).

Alternative 2

In order to preserve the 'best' of humanity when the supposed 'self-destruction' of the earth takes place around the year 2000, the JASON Society proposed that a vast network of underground cities be built in order to secure living quarters for the chosen Illuminati elite, high level cooperative politicians, and selected military elements. Underground cities are also co-habitated by extraterrestrial alien groups that the secret government has made treaties with for technology exchange and human-alien hybrid breeding programs.

The idea of the earth 'self destructing' around the turn of the century due to overpopulation was perhaps an early cover story for the justification of the underground cities. In the 1950's and 60's, the American public was led to believe that the continuance of government, in the event of worldwide nuclear war, was a logical reason for underground facilities, but we now know that the entire Soviet/American cold war and MAD (Mutual Assured Destruction) scenario was an orchestrated Illuminati deception to bleed both Russian and American citizens of their wealth in order to finance black budget operations, secret technology developments, underground city construction, genetic engineering projects, time and space travel research, and anti-gravity, flying saucer spacecraft development.

Another possible reason may have to do with information that the Illuminati obtained from aliens in 1947, following the Roswell crash.

The aliens may have warned the secret government of the inbound trajectory of a huge planet named Nibiru, causing earthquakes, volcanoes, tidal waves, and earth movements of cataclysmic and Biblical proportions. The American public, kept in the dark about these underground construction plans, would have to fend for themselves on the surface when the Bad Times came (it's also possible that the inbound Nibiru/cataclysm scenario is (was) a disinformation ploy).

Based on 1989 information, it was claimed that there were at least 75 underground cities in existence below the soil of America interconnected by high speed, frictionless trains called Maglev trains (Magnetic Levitation). The former Atomic Energy Commission had also constructed 22 separate underground cities for their own use. [Update: In 1995, Phil Schneider said that there were 129 underground cities and in May of 2001, Stewart Swerdlow, former mind controlled "Montauk Boy", claimed that there now exists 133 underground cities in North America. Al Bielek also claims that there are many hundreds of underground cities and bases built worldwide]

Alternative 3

Due to the access to certain alien technologies, including interplanetary space flights which became available to the American government as a result of the Greda treaty signed by President Eisenhower and an alien group in 1954, the JASON Society proposed that operational bases should be set up on the Moon and Mars, which would also provide a safe sanctuary for the highest of the elites when the 'self-destruction' of the earth was going to take place a little after the turn of the new century. Bases on the Moon and Mars have indeed been built and have been in operation since the late1950's.

All three Alternatives included recommendations for population "control". They included:

1. Birth control
2. Sterilization
3. The introduction of deadly microbes to reduce or slow the growth of earth's population.

Bioengineered Diseases

AIDS, Ebola, Gulf War Illness (GWI), and many other "new" diseases were intentionally bioengineered in laboratories that are mostly found in the United States and include the Army's secretive facilities

at Ft. Detrick Maryland. Drs. Nancy and Garth Nicholson have done a great deal of research and investigation into the cause and treatment of Gulf War Illness, since they and their daughter (who was a helicopter flight nurse in the 1991 Gulf War) ALL came down with GWI. In 1996, the Nichols published a paper which states their deep suspicions that GWI is due to bioengineered pathogens and that a hidden population control agenda appears to be in place.

Some bioengineered pathogens were designed to target certain ethnic groups for elimination. These groups likely include blacks, hispanics, Black Africans, Native Americans, and homosexuals. The preferred Illuminati method to introduce disease is via vaccinations. Dr. Len Horowitz firmly established in his 1995 book, *Emerging Viruses*, that the HIV virus which causes AIDS was introduced and spread throughout the majority of black populations in Africa via the World Health Organization (WHO) during their mandatory smallpox vaccine campaigns of 1976-1980.

The pathogens which produced Gulf War Illness were introduced to a limited number of Gulf War troops via "special" vaccinations (not recorded on the troop's official vaccination records) for Anthrax and other supposed dangers posed by Saddam Hussein. It was a CIA test run to see how many Gulf troops would succumb to the disease and how quickly they might die off. The results have been somewhat disappointing for the CIA/Illuminati planners. They thought their new little bugs would wipe out a lot more people, a lot faster than it has.

Eventually, the US military has to be eliminated because they are seen as a threat by Illuminati planners when they kick in their plans to dissolve the United States and incorporate the former United States into the new 10 Region States of America which will include Canada and Mexico.

Retired Army Flight Nurse Joyce Riley presented damning Department of Defense classified "Secret" documentation to an audience at the Granada Forum in Tarzana, CA on July 1, 1999 which supported the contention that the military intentionally inoculated Gulf War troops with the pathogens that eventually caused Gulf War Illness as part of an insidious program directed by the CIA called MK Ultra.

Domestically, the strategy is to make the public believe that bio attacks by foreign terrorists (like Osama bin Laden, who seems to be the government's latest incarnation of Hitler; having replaced former title holders like Gaddafi, Saddam, and Milosevic for the honor) is inevitable and when it happens the government will say that they have tried to warn us all along. A similar tactic is being used by the government to condition the public to the notion that these new bugs are showing up everywhere – birds in New York, wild deer in national parks, etc. and that they are being spread by international travel, etc. (same set of lies they used when AIDS started showing up in 1983-85).

Starting in December of 1997, this administration of Illuminati puppets have been seeding stories into print and electronic outlets about the "growing fear" of anthrax attack and the need to "protect" the troops. When it comes to the public, however, former CIA director John Deutch told CNN in July of '99 that the government wasn't prepared for that task, so further preparations need to be taken. I guess we're suppose to believe that the military's staging of mock battles in US cities is also part of the government's "protection" plans for us against those nasty foreign terrorists.

9/11 Attack of America

The staged and planned attacks of the World Trade Center and Pentagon buildings were deliberate acts orchestrated by Illuminati planners using naive Arab dupes (the "terrorists") to pull off a suicide mission in which they were allowed, guided, and facilitated by hidden intelligence agents and operatives. They are using this orchestrated ruse to stampede the public into accepting Big Brother control and ID programs, along with the sweeping away of constitutional guarantees and liberties under the guise of anti-terrorist legislation. The dissemination of biowarfare agents in America to reduce population needed a convenient cover and the "terrorist" scenario provided it. I'm simply astonished at the gullibility of so many Americans in accepting this poorly covered up orchestration. The growing number of web sites and well written articles that are exposing the details of this deception-from the planted bombs in the WTC towers to the stand down of military air defence forces while the hijacked planes were en-route makes it abundantly clear that the attacks of Sept 11, 2001 were a ruse, a charade, a set up that even a child should recognize.

BOOK REVIEW: None Dare Call It Conspiracy (Hardcover)

by Gary Allen (Author), Larry Abraham (Contributor) Published by Buccaneer Books, 1986. "Most of us have had the experience, either as parents or youngsters, of trying to discover the "hidden picture" within another picture in a children's puzzle book..."

Frightening March 4, 2005

By Robert P. Beveridge "xterminal" (Cleveland, OH) - See all my reviews

It has been my experience for the past half-decade or so that when I want to read good horror, I don't go to the horror section of the bookstore. I go to the non-fiction section. There is a short but powerful list of nonfiction books that are guaranteed to put a good scare into you, and I seem to have stumbled across the majority of them. Stanton Peele's *The Diseasing of America*. Robert Weinberg's *One Renegade Cell*. Glenn Gaesser's *Big Fat Lies*. Add to the list Allen and Abraham's *None Dare Call It Conspiracy*.

Allen and Abraham here attempt to make the case that the events of recent world history, from the Bolshevik Revolution forward, have been brought into being and controlled by a relatively small group of insiders, mostly international banking magnates and (later on) the Council on Foreign Relations. While it's certainly conspiracy theory,

Allen and Abraham have done a fine job of backing up their assertions with a huge amount of primary and secondary source material (just looking up the titles in the bibliography took me the better part of two hours). Whether you're a fan of conspiracy theory or not, the facts presented, and the conclusions drawn, in this book, are thought-provoking and outrageous.

I defy any reader of this slim volume, conservative, liberal, neocon, free-thinker, what have you— not to be incensed by it. Even if you only believe a fraction of what Allen and Abraham put forth in this book, it cannot but make you want to do something to stem the tide. And there is certainly a tide; the book, originally written during the Nixon administration, can be looked at now with three decades of hindsight.

There's no denying that much of what Allen and Abraham forecast for America's future has either come to pass or is in front of the Cabinet as we speak. (Michael Badnarik dissects the final chapter of this book, and points out a number of ways these predictions have already happened, in his book *odd to Be King*). Whether you believe that there really is a conspiracy afoot (and, really, "follow the money" does work here) or whether you believe it's all the result of incompetence, stupidity, and lack of communication, there's no denying it's happening. All you have to do is step outside and look around.

Terrifying. A must-read. Do whatever you need to do to hunt a copy down. The first book guaranteed to make my Best Reads of 2005 list.

Exposes the Globalist Beast!, January 30, 2007

By Cwn_Annwn (Copenhagen, Denmark) - See all my reviews
Though somewhat dated, this book remains a classic in exposing the new world order conspiracy. This blows the lid on the international financiers schemes, plans (much of which have come to pass since this book was published) and shows how they instigated and financed communism. Allens take was that the global elites were going to mold the world into a borderless communist state with no sovereign nations or people. In retrospect they have shifted gears a little, now fusing the worst elements of capitalism with ideas of universalist/oneness of all men and social controls of communism/socialism. You could easily just insert the

word "globalism" where Allen speaks of "communism" or "socialism" in this book and it doesn't seem dated at all.

You also get insight into the Federal Reserve, the CFR, the Bilderberger group and who instigated their founding and who controls them, the Rockefellers, the so called "philanthropic" foundations controlled by the global elites, the European banking syndicate, the making of puppet Presidents and other political figures, the fermenting of scam wars and lots more.

I don't agree with all of Allens conclusions or his solutions to defeating this globalist beast but None Dare Call it Conspiracy is a must read because it contains much vital information on deciphering the new world order conspiracy. I highly recomend The Rockefeller File by Allen also.

If You Cherish Freedom and Are Willing to Protect It, November 12, 2005

By Richard M. Smith II "rmsi" (Texas USA) - See all my reviews
The authors have done an exceptionally brilliant job of presenting the conspiracy of international bankers, military industrialists, and oil tycoons and the secret societies they have spawned in a remarkably concise, easy-to-read and easy-to-understand book. The truth is, there are a great many aspects to their conspiracy. But, there are very few conspirators.

Many Americans have been very cleverly and deliberately misled by the mass electronic and print media into believing that no such conspiracy exists. Media moguls accomplish this by employing shrewd tactics devised more than a half-century ago by the CIA; ridicule the messenger-not the message. They shy away from dealing with the message because that draws them inescapably and most uncomfortably close to the truth. They won't risk that.

Many Americans fail to realize that fact and fail to realize that the mass media is owned and controlled by the conspirators. Some call them "the elite" or "the power elite" or "the high cabal" or other such names that tend to make them seem far more respectable than they really are. The fact is they are greedy, self-serving criminals who have seized enormous, tight-fisted control over our government at federal, state, and local levels while far too many among us have

been asleep at the polls. To avoid profanity, which certainly seems appropriate in their case, I simply call them "the conspirators."

Since the mass media has lulled a great many among us into a false sense of security, these monsters have actually gotten away with stealing your vote. If you doubt that, I urge you to read the Collier brothers "Votescam".

Worse still, the conspirators have shredded most of the Bill of Rights with the absurd acts that they rushed through Congress in the aftermath of 9/11, a vicious attack on Americans executed by the conspirators-not a bunch of Arab idiots with box-cutters. The main attacks on the Bill of Rights came in the form of the Patriot Acts I & II, the Homeland Security Act and the all-to-obviously Nazi-inspired "Model State" Emergency Health Powers Act. Adolf Hitler would absolutely love that one!

I could go on at great length about the extent to which these acts and others, like the War Powers Act, have gone to wipe out your rights under the Constitution and its Amendments. Yet, I believe Michael C. Ruppert has already done an outstanding job of that. So, I strongly encourage reading his book "Crossing the Rubicon: The Decline of the American Empire at the End of the Age of Oil" [...].

But whatever you do, read "None Dare Call It Conspiracy" before it's too late. You'll be sorry if you don't.

None dare take it seriously, August 9, 2005

By Lisa M. "luna dante" (USA) - See all my reviews

This is one of those subjects so maligned and so ridiculed in the ultra-liberal university system, it's taken for granted that what is discussed here is paranoid fabrication. I read this first as a teenager. Further reading on the various connections made, studying world history, and keeping up with world events has made me realize that it was one of the most important things I've ever read.

A lot written on the subject of conspiracy is hysterical misinformation. This book is the antithesis of that. It is simple, serious, and very calmly put forth.

When you read about the Tower of Babel, Alexander the Great, and

Napoleon, you clearly see that people don't change, they just change clothes, really.

As I write this, we are one step closer to the objective. As you read this, we'll be closer than that. Everyone chooses what to believe instead of believing what's always been true.

It's not paranoia if they really are conspiring to seize YOUR bank,

By Jaundiced Eye "jaundicedeye" (Hollywood, California, USA) - See all my reviews

I first reads this shortly after it came out, and it scared the bejeezus out of me. As the decades passed and I learned proper historiographic and journalistic techniques, I realized that "None Dare Call It Conspiracy" was mostly bunk: many of the perceived threads of conspiracy were nothing more than examples of proximity in time and space, the sorts of coincidences which any history is likely to throw up, simply because the rich and powerful DO hang out together and they DO intermarry, and have done so since the beginning of time, mostly without any intent to crush the peasantry underfoot. Then George W. Bush usurped the Presidency of the United States....

With most of the protagonists of NDCIC long dead, the Bush regime has consciously adopted policies which were described in detail in this book thirty-six years ago. The "election" of 2004, in which the voters were offered a choice between a Skull & Bones cultist from Yale and a different Skull & Bones cultist from Yale makes the rigged elections Allen and Abraham describe seem like Gilbert and Sullivan operettas by comparison. There was literally NO difference between the policies of the Republican Party candidate and the Democratic Party candidate – if one judges John Kerry by his actual Senate voting record instead of the crap he spouted once he garnered more than five percent in a primary; prior to that he had voted for EVERY power-grabbing, Constitution-shredding outrage proposed by the Bush gang, including the illegal war against Iraq, the war crimes committed there, and the torture used by the jack-booted thugs of the Bush regime on every continent (except Antarctica, maybe).

Still and all, while "None Dare Call It Conspiracy" presented the playbook, it seemed to have failed entirely when it came to predicting

the teams which would make it to the finals. In fact, in the spring and summer of 2008 I even wondered what had become of the Rockefellers and some of the other “Insiders” described in NDCIC. Then came September 2008 and the cockroaches came crawling out of the woodwork, allowing us to see that – mirabile dictu! – while the teams were different, many of the players were the same as those denounced in “None Dare Call It Conspiracy!”

Lehman Brothers, which crops up again and again in NDCIC as one of the main tools of the “Insiders,” was allowed to crash and burn, which would have been astonishing except that its collapse was used as the justification for the most crushing act of repression ever to have been inflicted upon the American people. The largest bank failure in American history (which is to say, in WORLD history) took place in the dead of night when Washington Mutual was seized and sold off to JP Morgan Chase without so much as hint that the stockholders had any say in the matter. JP Morgan Chase is the unholy union of two “Insider” banks notorious from NDCIC: JP Morgan and the Chase Manhattan Bank, which was chaired by David Rockefeller in the 1970s. Even as those who make their living “debunking” conspiracy theories were starting to cite the collapse of Lehman Brothers as “proof” that there is NO conspiracy between the American government and a few Wall Street bankers, the great-grandchildren of the robber barons of the 19th century – those whom Allen and Abraham describe as the founders of the unspoken “conspiracy” – had a bank with MORE THAN THREE HUNDRED BILLION DOLLARS IN ASSETS handed to them for less than \$2 billion! At that price Bill Gates could have bought WaMu with his “walking around money” ...but the Bush regime didn’t offer it to the world’s most successful entrepreneur.

Millions of Americans awoke just a few days ago to discover that their mortgages were now owned by the children (literal or figurative) of JP Morgan and John D. Rockefeller. But beyond those raw assets, Washington Mutual had something else: huge stock holdings in the Federal Reserve Bank of San Francisco and other Federal Reserve Banks. (The Federal Reserve Banks are NOT an arm of the United States government; they are owned by the banks in their regions. By acquiring WaMu the Morgan-Chase conglomerate effectively acquired control of the Federal Reserve Bank of San Francisco, a lovely companion piece to the Federal Reserve Bank of New York, which it has controlled for decades. The Bushies have

literally given JP Morgan Chase a license to print money.) By using Lehman Brothers as a sacrificial pawn, the "Insiders" were able to win the game, and the "revolution from above" which is discussed at the very beginning of "None Dare Call It Conspiracy" is now a fait accompli.

While you let that last paragraph sink in, consider this, too: the Bush regime has recreated many of the very same trusts and monopolies which Progressives and free market proponents had spent decades breaking up. AT&T, the creation of J. P. Morgan the banker, has been re-inflicted upon the American people by the Bushiecrats, and American telecommunications companies are being snatched up one by one into its vice-like grip. Standard Oil, broken up a century ago, is essentially back in business now that Exxon has been permitted by the Bushiecrats to snap up piece after piece of the old Rockefeller empire. Not only do the grandchildren and great-grandchildren of the robber barons and the "Insiders" have the American economy in a stranglehold once again, they are actually recreating the very companies which a hundred years of Americans justifiably hated and feared!

It was all too easy to dismiss "None Dare Call It Conspiracy" as bunk for many years. The events of September 2008 have revealed it as prophetic. Logically flawed in many places, positively ludicrous in others, but, on the whole, horrifyingly prophetic. Read it while you can.

This book created a primary turning point in my life, November 5, 1998

By A Customer

I was a senior at BYU and had never even heard of the idea of a conspiracy among the highest ranking government, media, banking, business, etc. leaders seeking to establish world socialist government. Then I read this book.

I would probably not have paid any heed to the book except for an endorsement on the back cover by someone I personally revered deeply: Ezra Taft Benson, former U.S. Secretary of Agriculture and then President of the Quorum of Twelve Apostles of the Church of Jesus Christ of Latter-day Saints. He said, "I wish that every man

and women in the free world and behind the iron and bamboo curtains might read this excellent book."

Since that time of my first reading (about 1987), I have never seen the world the same. Now the lies of the politicians are obvious. The shenanigans of the international businessmen and bankers reek. The blindness on the part of Americans to their plight is appalling.

Not only was I convinced that there is a conspiracy, but every waking breath of mine has been devoted to exposing and overturning this secret combination ever since. I even set my professional studies aside and wrote a book, then ran for office, then started the American Study Group, then dug chiasms and parallels out of the scriptures which prove these things true, etc. I have continued to devote my energies nearly full-time to the cause of freedom, at great personal sacrifice (my web page www.greaterthings.com will show you some of the fruits of that study).

It all started when my roommate gave me a copy of *None Dare Call it Conspiracy*.

Maybe some day I will get back into Physiology. For now, there is a war going on. The most powerful weapon is the pen — specifically, the Word of God; but the time may come when we will have to implement the reason for the Second Amendment to the Constitution. I do not look forward to that day of martial law and chaos. But in the end, truth and freedom will prevail. Of that I am sure. Where the individual ends up in that struggle is up to them. I would like to see as many as possible side with freedom.

Required Reading... *IMPRIMIS!*, March 21, 2000

By J.D. Hendrex (TEXAS) - See all my reviews

When I first read the paperback version in the mid-70's, I was most impressed that the author stated he would not try to "sell" you or tell you what to think. Rather point out certain things, which you could readily check out for yourself. He stated "after reading this book you will never view the world the same again." I paraphrase of course. He was right! This book should be required reading, right along with "The Constitution of the United States of America!" I love my country, but I hate what some people are doing to her. I have no

vested interest in anyone buying or reading this book. Please buy and read this book for your sake and the sake of every American yet to come. This book is potent stuff. I have not read the 1990 version... yet! If every voting American should read this one book, the outcome of the 2000 election and all following would be drastically different. No one would tell you, could tell you, you would "KNOW," you could never be snowed by a politician again. BUY-IT, read-it, and you too will encourage others. It's important to YOU! The book is an easy read, hard to put down, and I'm sure it's just as relevant today as 20 years ago.
