**Re: Long Term Business Opportunity,**  
**Notice of Infringement and Cease and Desist**

Dear Mr. Weissman,

It was a pleasure speaking by phone on April 30, 2009 and per our conversation, I look forward to hearing from the appropriate person within Sony that you are notifying of our conversation, in the very near future. In the meantime, please forward any and all inquiries or information requests to my contact information below.

While I certainly look forward to re-establishing positive business relations and working out a long term strategic business relationship with Sony, as indicated this is an Intellectual Property infringement matter, which involves the infringement of my Intellectual Property rights since 1998. I also have notified you of a federal lawsuit that Sony is a part of, currently at the US Second Circuit Court of Appeals, one of the many lawsuits and legal actions that are anticipated in the near future. The litigation was marked legally "related" to a federal Whistleblower case of Christine C. Anderson, which by recent Order of US District Court Judge Shira Scheindlin is being scheduled for a public Trial with a Scheduling Conference to be held in that case on May 8, 2009<sup>1and2</sup>. More importantly, my Intellectual Properties at issue herein have been valued at over a Trillion dollars over the life of the IP and the lawsuit is for 12 counts at one trillion each.

With that history in mind and with a view toward positive long-term business relations with Sony, I am providing 72 business hours Notice to Sony America to make an initial good faith deposit of \$10 Million dollars in an account to be provided as an initial Agreement to agree to a long-term royalty and licensing payment arrangement. As you are or should be aware at this time, Sony America is a named Defendant in my Amended Complaint<sup>3</sup> as part of the MPEGLA LLC patent pool and a licensor of same.

US Judge Shira Scheindlin who is hearing the Trial of the Related Anderson case has declared my RICO case to also be a "murder" case, although I only alleged Attempted Murder after the Car bombing of my family's mini-van in Boynton Beach several years ago. Full pictorial evidence of the car bombing may be found at my website at [www.iviewit.tv](http://www.iviewit.tv) along with a wealth of information documenting these affairs since the inception, including a Link to a February 2009 Petition to the Honorable President Barack Hussein Obama II. and The Honorable United States Attorney General Eric H. Holder Jr.<sup>4</sup> and others.

Thus, this is a limited time opportunity to begin attempting to aid Sony out of both the infringement issues and the civil complaint on more favorable business terms, if possible and begin business relations with myself as the true and proper inventor of video and image scaling technologies used by Sony. I have also included reference to the Intellectual Property filings below and the federal lawsuit and related cases.

At the expiration of the 72-hour Notice, which shall commence on Tuesday, May 05, 2009 at 5:00pm US Eastern, unless there has been completed arrangements for the good faith deposit of Ten Million Dollars (US \$10,000,000.00) as part of this Agreement to agree, Sony America shall Cease and Desist any and all uses of the Intellectual Properties herein and learned through agreement with my former companies Ivieviewit. Further infringement will seek elevated costs in the nature of treble damages for willful infringement and less favorable terms than presently offered for this limited time Agreement to Agree.

Additionally, I have attached letter complaints to the US Securities and Exchange Commission ( SEC ) regarding some of the other named Defendants in the lawsuit such

as Intel, Lockheed Martin and Silicon Graphics, Inc. for violations of FASB No. 5 and related accounting and reporting requirements, which shows part of the direct course of action that will be taken for failure to make sound business choices by entering into negotiations for this long term business and licensing agreement by making the good faith \$10,000,000.00 deposit.

As further mentioned, Sony was under NDA and other agreements both signed and in the drafting phase at the time of discovery of the crimes regarding using the technology in the MovieLink (seven studio download/streaming) project, across all Sony websites and other uses for various hardware and software applications. Some of the law firms involved at the time were Irell & Manella LLP and Armstrong Hirsch Jackoway Tyerman & Wertheimer, P.C. Thus, we would anticipate a deal with Sony that would remunerate for past uses and pay royalties going forward and as a long-term partner with the true and proper inventors going forward.

Per your request, listed below are some of the key Sony executives involved with me and my companies:

Yair Landau, President @ Sony Pictures Digital Entertainment

Howard Stringer, Chairman @ Sony 550 Digital Media Ventures, a Sony Group Company

Thomas Daniel 'Tommy' Mottola, President & Chief Executive Officer @ Sony Music Entertainment Inc. (referred by Doc McGhee, brother to Iviewit inventor Patricia Daniels)

James L. Honoré, Executive Vice President Post Production @ Columbia Tristar Motion Picture Group a Sony Pictures Entertainment Company

Douglas Chey, Divisional CIO of Motion Pictures and Television @ Sony Pictures Digital Entertainment (originally learned of my inventions prior to Sony at AOLTW/WB)

Corii Berg, Senior Vice President Business Affairs @ Sony Pictures Digital Entertainment

Patrick Kennedy @ Sony Pictures Digital Entertainment

Geoffrey Springer, Director of Technology Agency @ Sony Pictures Digital Entertainment
