TerreStar Networks Inc. Bankruptcy - What is the Real Story. Philip Falcone - LightSquared, Charles Ergen EchoStar - Dish Network.

More on the **Massive Smoke and Mirrors** in the Wireless, Broadband, Satellite Subscription, **Spectrum Bankruptcy Drama** over **TerreStar Networks Inc.** AND **DBSD North America**.

Did Any of the Bidders in the **DBSD North America** Bankruptcy or the TerreStar Bankruptcy Have Inside Documents, not available to the Public ?

Were their Inside, undisclosed Connections and Conflicts of interest with Echostar, Charles Ergen, Dish Network or With Philip Falcone, Harbinger Capital in Connection with Bidding on Bankruptcy Assets of the DBSD North America Bankruptcy or the TerreStar Bankruptcy ?

Why Today is **TerreStar Networks Inc** REALLY backing off of **EchoStar (Dish Network)** Plan? I believe there is a whole lot more to this Story? Political Favors, Bribes ?? Pay Offs ?? Conflicts of Interest?? Inside Information..

<http://www.bizjournals.com/denver/news/2011/02/17/report-terrestar-drops-echostar-plan.html>

The Latest on the **DBSD North America Bankruptcy** seems to be that Charles Ergen, Dish Network, Echostar will buy DBSD North America for 1 Billion Dollar and that once this DBSD North America bankruptcy buy is complete then AT&T will buy Dish Network, Echostar, and DBSD North America. Was there any Secret Handshakes, Back Alley Deals, Conflicts of Interest or Inside Information on this one? I Say THERE Certainly had to Be.

EchoStar Got Hughes, so Does Lightsquared Get TerreStar? I mean it is all a game for Zillionaires Right ?

Who Really did Bid on DBSD and Terre Star ?

Were there Inside Connections, Information Leaked to Either Charles Ergen or **Philip Falcone**?

"Falcone's LightSquared May Bid for TerreStar, DBSD"

[TerreStar Networks Inc. Bankruptcy - What is the R...](#)

[Intel Corp - INTC Press Release on Mass Fraud and ...](#)

[Wholesale Satellite Service](#)

[Invasion of Property Rights and Theft of Home Valu...](#)

[Wim Sweldens](#)

<http://www.bloomberg.com/news/2011-02-04/falcone-s-lightsquared-may-bid-for-terrestar-dbsd.html?cmpid=msnmoney>

IS Philip Falcone, Harbinger Capital, Lightsquared Bidding on TerreStar and DBSD or Not?

Does Charles Ergen - Dish Network, EchoStar or Philip Falcone, Harbinger Capital, Lightsquared have inside information that is not "**available to the public**" on the **DBSD North America Bankruptcy** or the **TerreStar Corp. Bankruptcy** ?

I Believe that from **my "Investigations"** of Craig McCaw, the Founder of DBSD North America, CO Global Communication, XO Communication and Clearwire Corp. - I Believe there is inside information and their is Money that will be made from Insiders Like Craig McCaw.

As it is Said that AT&T Will Buy Dish Network AFTER they Gain Control of DBSD and Terrestar, this affected stocks as a rumor already. Craig McCaw is VERY Connected to AT&T I believe Craig McCaw is in on all this and will Make Billions, and that No Where near ALL has been disclosed in just how "IN" Craig McCaw really is.

What About Today's Headlines of **DBSD Scraps EchoStar Plan** - What Does This Really Mean, and What Connections to the Blackstone Group Or TerreStar do other "Bidders" REALLY Have?

<http://www.automatedtrader.net/real-time-dow-jones/47322/terrestar-scraps-echostar-plan--continues-to-look-for-sale>

Is this yet another Media staged event so you won't be surprised who gets the Bid and why?

Are there Really any "**Whitehouse Favors**" in any of this as suggested at one point by **Ken Boehm - Chairman, National Legal and Policy Center**? We know that The Whitehouse is "in bed with Intel" and that Clearwire is Heavily Connected to Intel, and that other bidders want to take it easy on Intel Corp - INTC.

<http://www.investigativeblogger.com/2011/02/executive-office-of-president-usa-knows.html>

Headlines Keep Saying, "Falcone's LightSquared May Bid for TerreStar, DBSD" - I mean come on Did Philip Falcone Bid on TerreStar or NOT ? What is Really Going ON, Fully Documented Offers for TerreStar were Due Last Monday, Feb 7th Right ?

http://terrestarinfo.com/pdflib/320_15446.pdf

Also Note the **Foley and Lardner** Connection on Page 2

" Deutsche Bank National Trust Company as Indenture Trustee for the Debtors' 6.5% Senior Exchangeable Notes and **Foley & Lardner LLP** as counsel to the Indenture Trustee

http://terrestarinfo.com/pdflib/320_15446.pdf

Foley and Lardner was involved in a 13 Trillion Dollar Technology Theft over the iViewit Stolen Technology. There is massive Proof of Corruption against Foley and Lardner and they to control the US Court System and Judges.

<http://www.foley-lardner.com/>

Intel Corp Uses this Technology and is So Far protected by Corruption U.S. Courts

<http://www.investigativeblogger.com/2011/02/open-letter-to-intel-corp-board-of.html>

Time Warner, Warner Bros, AOL Uses this Technology and even signed per minute licensing agreements over a decade ago, as well as they Signed Non-Disclosure Agreements, they have yet to be made accountable. The Time Warner General Counsel that KNOWS of this Massive Fraud is now the General Counsel at **LightSquared** (Curtis Lu)

<http://www.northwesttribune.com/2011/02/open-letter-to-time-warner-warner-bros.html>

Is Anyone at the **The BlackStone Group** (Thomas Middleton or Daniel Chang, 345 Park Avenue NY) Connected to Insiders at DBSD North America, CO Global Communication, Clearwire Corp., AT&T, EchoStar, Lightsquared, Harbinger Capital (450 Park Avenue NY) ? More on that Coming Soon - Got a Tip ? **Crystal@CrystalCox.com**

So a "**Bondholder**", can Bid on a Company in Crisis... Did TerreStar plan to go Down long Ago? what is the Real Back Story to the TerreStar Bankruptcy and the Uitimate Plan of WHO Really will Control TerreStar

Quote Below ...

" Billionaire money manager Philip Falcone 's big bet on a high-speed wireless network, which has led him to mortgage many of his flagship fund's key assets, could soon look even dicier as one of its cornerstone telecom investments teeters on the brink of bankruptcy, says Reuters.

Upstart telecom firm **TerreStar Corp**, which Falcone's Harbinger Capital Partners fund had invested in and which had been slated to provide some of the infrastructure for his ambitious satellite-based wireless network, recently warned that it lacks sufficient cash and financing to pay for all of its third-quarter expenses – which means it may have to file for a **Chapter 11 Bankruptcy**.

A TerreStar Bankruptcy filing could come soon **if TerreStar can't reach a restructuring agreement with its bondholders**, which includes funds managed by Falcone's Harbinger Capital Partners, said people familiar with the company's situation. "

Source

<http://www.hfmweek.com/news/582287/hfmweek-daily-snapshot-13-august.thtml>

So TerreStar did not "**Reach**" a Restructuring Agreement, and then the Bondholders involved in Terrestar Not Reaching An Agreement gets to bid on taking over the Company.

Did ANY of the TerreStar Bidders Receive ANY information that was NOT public or available to All Terrestar Bidders? I Think So... Matter Of FACT, I Allege So..

Is Arik Preis of Akin Gump Strauss Hauer & Feldas Conflicted in Any Way ?

Open Letter to Intel Corp (NASDAQ: INTC) Board of Directors and Intel Corp Shareholders
Thursday, February 10, 2011

Intel Corp Executives have Been Hiding a Very Big Secret from Intel Corp's Board of Directors, and Intel Corp's Shareholders for Over a Decade Now.

Intel Corp is involved in a Stolen Technology Scandal over the Iviewit Technologies, and Intel Corp CEO Paul Otellini has been covering it up. Then General Counsel Bruce Sewell also covered up this Massive Proven Fraud. This is FACT, there are Links in this Letter to Prove it.

For over a Decade the Corruption in Courts, Law Firms and in Government Agencies have Covered for Intel Corp Executives.

However, those days are over Now. And when it is time to pay the Iviewit Technology Inventors for their Inventions USED by Intel Corp for Over a Decade, well it will be the Intel Corp Shareholders and Intel Corp Board of Directors that pays for the Crimes and Cover Ups of the Intel Corp Executives.

Intel Corp has been Named in an SEC Complaint over the Stolen Iviewit Technology

[SEC Complaint Naming Intel Corp](#)

Intel Corp Has also been named in a 12 Trillion Dollar Federal RICO Lawsuit over the Stolen Iviewit Technology.

[Iviewit TRILLION DOLLAR RICO & ANTITRUST LAWSUIT](#)

Vice Chancellor, David B. Yoffie,
Max Starr and Doris Starr.

This Open Letter Will Go to ALL Intel Corp Board of Directors, Shareholders, Insurance Carriers and ALL Government Agencies Involved to serve as YET another Warning of what will happen to Intel Corp Shareholders. Just as in the Madoff Scandal, they CANNOT Say they Did Not Know. There is a Whole lot of Fact, Proof that they Did Know and DO Know RIGHT NOW.

Please Forward this Letter to ALL Intel Corp Investors, Shareholders, Directors, Executives that You Know of. This is a VERY Big Deal Financially. It is NOT a Hoax, Look at the Facts yourself and Warn Others.

The Stolen Iviewit Technology will Cost Intel Corp Investors, Shareholders Billions. CEO Paul Otellini of Intel Corp KNOWS of this Massive Shareholder and is NOT Disclosing to Intel Corp's Board of Directors, Shareholders or Insurance Carriers.

It is Your Money, You Have a Right to Know that Billions will be Paid By Intel Corp in the Iviewit Technology Theft. It is not a Matter of IF, the Proof is ALL there. It is a Matter of When.

Here is Proof that Intel Corps. CEO Paul Otellini and then Intel Corp General Counsel Bruce Sewell knew of the Stolen Iviewit Technology and have Yet to Disclose to Intel Corps. Board of Directors, Shareholders or Insurance Carriers to this day.

Wholesale Satellite Service

4G Wireless Service

"Billionaire Philip Falcone's LightSquared Inc. wireless venture has agreements with five customers to provide wholesale fourth-generation service, the company's chief marketing officer said.

LightSquared, based in Reston, [Virginia](#), has contracts with a national retailer, a device manufacturer, one website, and two carriers, Frank Boulben said in an interview yesterday in Barcelona, [Spain](#). He declined to name the companies because the agreements aren't yet public.

LightSquared is seeking to compete with [AT&T Inc.](#), [Verizon Wireless](#) and [Clearwire Corp.](#) in providing 4G wireless service. Under a Federal Communications Commission order, the company has to build a network that covers up to 100 million Americans by the end of 2012 and 260 million by 2016.

Boulben said LightSquared, which is backed by **Falcone's Harbinger Capital Partners** hedge fund, has amassed about \$1.75 billion in debt and equity.

"We're not going to raise more in the short term," he said.

The company has sufficient funding for the immediate future and will seek more as it achieves network buildout targets, **Audrey Schaefer**, a

spokeswoman, said in an e-mail. "The cost of capital goes down with each significant milestone, so LightSquared is raising money strategically when it makes sense," she said.

GPS STUDY

The service provider will begin network trials this year in Las Vegas, Baltimore, Denver and Phoenix after completing testing in a lab in the Dallas area, Boulben said. LightSquared is also in discussions with some carriers to share network equipment, he said.

LightSquared last month received a waiver from the FCC that lifts a requirement that devices using its service communicate directly with satellites. The FCC said LightSquared must participate in a working group with makers and users of global-positioning systems to ensure its service doesn't interfere with those communications.

Boulben said he was confident LightSquared would resolve any concerns about GPS interference, including possibly using filters on its cell sites. Groups such as Motorola Solutions Inc., the U.S. Department of Commerce and some small aircraft manufacturers have expressed concern that LightSquared's service may cause interfere with GPS and emergency communications."

Invasion of Property Rights and Theft of Home Value by T-Mobile. Phillip Humm Tramples Private Property Rights.

Is T-Mobile Liable for the Loss of Quality of Life, the Low Level Noise Frequency Damage, the Loss of Real Estate Value? **You Bet they are**, as Long as you can find a Judge that can't be bought off by a Big Tech Company Such as T-Mobile.

Sue T-Mobile for your Loss in Real Estate Value, your Quality of Life, the Low Frequency Noise Harming YOU that you Cannot Hear.

Sent to Me Today on T-Mobile Cell Tower Terror

".. the latest in cell tower nightmares in IL ; they simply keep popping up everywhere & taxpayers seem to have little they can do about it.

The town of Wilmette fought last night & had plans halted for an intrusive

tower which was going to be placed on a community center.

Mr. Huston had written an article prior to the meeting. In New Lenox, IL we were very unfortunate & a cell tower popped up compliments of T-Mobile and their intentional deception to our community/residential area. You can read below & attached if you are interested in our story.

All over from California to NY I have met people fighting the towers... placed literally right outside of their homes. I feel it is an invasion of my rights & theft of my home value. Renee Kosel (IL State Rep) and Lisa Madigan (State's Attorney) are working on our specific case.

Our neighborhood is really hoping for the best. The blog that I read about [Wim Sweldens](#) gives me hope that these towers will soon be disappearing... one can only HOPE!!

.....

I saw the news last night about the cell tower in Wilmette which many residents banned together to halt. .. Below is a cell tower case in New Lenox, IL that we are still fighting. Our cell tower was basically erected **100 feet from property lines of a residential area** without proper notification to all of the residents of the area.

We have been working with Ms Renee Kosel and Lisa Madigan with hopes that T-Mobile will re-locate the tower to the location they led all of us to believe it would be placed.

In the meantime, many of us worry about **the electromagnetic emissions** (many of our houses are 3 floors & emissions are basically invading our homes, let alone play areas).

You are one of the only IL writers who has made mention of the emissions, as the courts in IL will NOT give it any attention. **T-Mobile's** external affairs rep **Mark Wilson** blatantly laughed at us & lied to our faces about the non-existent threats we were concocting (and he also stated there is no proof our home values would decline from the tower).

I challenge you to take a look at the submissions below to Renee Kosel & also Lisa Madigan... the attached letter from Insight on behalf of T-Mobile and the map of our area. I've learned from all of my research that T-Mobile is the worst one out there & they are literally doing whatever they can to get their towers into place... then running away from it all. It is so maddening because this tower is hideous & literally staring at all of us each and every day. We are all hoping for its relocation... otherwise, what do we do... move? Take losses on our homes? Many of us have been here 12 years or more...

Sincerest thanks for any attention you can give to this matter,

Beth Franczyk

<http://heraldnews.suntimes.com/1967344-423/tower-property-mobile-springview-burdelik.html>

Link to Joliet Herald article

Information (along with petitions from neighborhood) sent to Lisa Madigan via Renee Kosel:

As residents of the neighborhood within 100 feet of the T-Mobile cellular tower, we were legally required to receive notice of upcoming construction. The notice that SOME of us received was simply fraudulent. It was certainly not reflective of the ACTUAL agenda that T-Mobile had. T-Mobile intentionally misrepresented themselves with the intent to deceive those of us residing in the surrounding residential area.

The notification began by boasting of T-Mobile's improved wireless network coverage in the area. By intentional design of the letter, most readers tossed it into the garbage since they are not T-Mobile customers and do not care about coverage. Anyone that read on was told the Will County Land Use Department issued a building permit.

In reading this, one would assume that the permit was issued for the site located AT ROUTE 6 & GOUGAR ROAD since that was how it was specifically stated. Will County has strict rules for permits, so one would assume they did their job & taxpayers would be protected. Reading on, the letter states "YOU DO NOT NEED TO RESPOND TO THIS LETTER".

In fact, many did not because they worded this letter as if there was absolutely no recourse & the ball was already rolling. For questions, Ray Shinkle responded to almost NONE of the phone calls made. (We found out he was later let go – as if that was supposed to be a solution to this mess.) Those of us that he did respond to were told a tower would be placed "at route 6 & gougar" just like in the letter.

The daily activity "At Route 6 & Gougar" was quite chaotic during the summer of 2010. The walking path was being completed, a parks department area also on that corner had some paving done with a fenced in parking lot. One would assume among that activity, the cell tower was being placed over there.

Unfortunately on September 14th, many in our subdivision came home to find the tower erected just next to our homes and looming over play areas. In one day the tower went up & nobody could do a thing to halt its progress.

Questions were directed to Joliet, Will County, etc. Many officials contacted knew nothing about the tower. It was never discussed in an open public board meeting, nor were home-owners told it would be placed within 100 feet of their property lines. (Being that the tower is 154 feet tall, we see this as a huge problem.)

When looking at the attached map of our area; you can see where we were specifically led to believe the tower would be placed. WHY ON EARTH does the constructed location (among a huge parcel of empty land) make any sense? Taxpayers should have a right to know in advance – not "guess" that it would be put in the MOST SENSELESS location.

Our subdivision (and 100% of the taxpayers receiving the poor excuse of a "notification") insists that T-Mobile intentionally deceived us. Mark Wilson stood there in a meeting & told us that they wanted to place the tower closer to the corner, but the landowner chose the location.

He insisted that by law T-Mobile was not required to give us any more information. Please note however, that the location of "At Route 6 & Gougar" (the corner parcel) is owned by another person. So in summary, the tower was never planned for "At Route 6 & Gougar" because that landowner was not involved.

We demand as taxpayers that this company be held to their word. They should place the tower where they told us. NOT 100 feet from our property lines. NOT looming over our homes. How about "AT ROUTE 6 & GOUGAR"???

Letter sent to Renee Kosel from neighbor which really describes the situation well:

Representative Renée Kosel

Imagine pulling into your driveway one afternoon to discover a massive structure measuring 150 feet tall devastating the sanctuary of your home. Or possibly receiving a call at work from your wife sobbing on the phone about how she just witnessed the value of her home plummet. Many of the residents that live in the New Lenox Township near the Jacob's Farm did just that Tuesday 9/14/10.

We gathered in dismay, all wondering where our protection was, and how could something like this take place?

We asked how much help will our \$9000.00 a year in property taxes garner us?

Many of us attended the County Board meeting to be told "sorry, but this is a state matter".

To understand the severity, these homes were purchased because they are located within a protected (can not build on) detention area that beautifully backs up to a tree-lined 1/2 mile burm with a creek and then farm with a lake (and now a hideous, intruesive cell tower). To really feel the impact one needs to drive by and witness it for themselves, words can't and won't describe.

The vast majority of the home-owners have built decks and patios and can be seen nightly enjoying the sunset over the trees and farmland. That "wow-factor" is now gone. Who or whom could reek this havoc without any provocation or notice, let alone a meeting? A corporate giant T 1 Mobil has allowed, conspired and manipulated state zoning laws and caused destruction to my neighborhood effecting the lives of hundreds if not thousands.

T - Mobil and their conspirator's (Acquisition agent Mike Fahey of Ameritech and Ray Shinkle of Insite Inc. Real Estate Consultant Services)

took advantage of the terms "non-residential" (when it's clearly a residential area!) and pounced on the greed of a farmer who happens to own land in a "unincorporated" area of a state.

We are powerless due to these state zoning laws, terms such as unincorporated and non-residential allowed this to happen. The state of Illinois rely on corporations such as T 1 Mobil to do the right thing and they failed. It's been four days and T 1 Mobil corporate offices have not returned any calls (call it a cooling off period?).

Mr. Fahey who chose the site, knowing first hand the impact, has not returned numerous calls. Mr Shinkle politely told us they are in complete accordance of state zoning statutes / laws but he became silent when I asked if he felt they followed the spirit or the intent of the law.

Mr. Shinkle would rather talk about **over-lapping cell tower coverage**, that's right, when I pressed him on why he did not consider the impact and alternative nearby locations he requested my empathy and said he was bound to that location because T 1 Mobil frowns upon unnecessary over-lapping tower coverage (unbelievable).

In closing I/we are requesting assistance reversing this multi-level poor decision and restoring the serenity we have paid for and expect. We entrusted our zoning officials and they have let us down.

We should have been allowed a meeting to discuss such an intrusion. How does something like this happen especially within this climate of political correctness (my rights)?

This is America and my unincorporated tax dollars fund programs just as well as Village and or City tax dollars fund. We need your help. One final note, if this is truly a non-residential area would us residents be having this issue?

Sincerely,

Kent Cogswell (on behalf of numerous residents)
3505 Cascade Lane
New Lenox, IL. 60451 "

People OVER Profit

T-Mobile has NO Right to Take OVER your Quality of Life.

What Does **CEO** Phillip Humm have to Say?

Do you have any Information on **CEO** Phillip Humm?
If SO eMail Me. Coming SOON

PhillipHumm.com

Lots more Coming on T-Mobile
and the Cell Phone Tower Terrorists at T-Mobile.
Got a Tip?
