Re: Complaint - Regarding Apple Inc. (NASDAQ: AAPL) and Possible Trillion Dollar Fraud on Apple Shareholders and Others

“No doubt the responsibility in such a case is shared by those who ask for a thing. But if the thing is criminal, if, for instance, it is a licence to commit adultery, the person who authorises the act shares the guilt of the person who commits it. Here again what I have said is not in any way mysterious or esoteric. It appeals to no hidden code. It aims at no secret moral. It supposes nothing, and implies nothing but what is universally current and familiar. It is the common, even the vulgar, code I appeal to.

I cannot accept your canon that we are to judge Pope and King [or in this instance US Presidents, Judges, *Regulators*, etc.] unlike other men, with a favourable presumption that they did no wrong. If there is any presumption it is the other way, against the holders of power, increasing as the power increases. Historic responsibility has to make up for the want of legal responsibility. Power tends to corrupt, and absolute power corrupts absolutely. Great men are almost always bad men, even when they exercise influence and not authority, still more when you superadd the tendency or the certainty of corruption by authority. There is no worse heresy than that the office sanctifies the holder of it.” Here are the greatest names coupled with the greatest crimes; you would spare those criminals, for some mysterious reason. I would hang them higher than Haman, for reasons of quite obvious justice, still more, still higher for the sake of historical science.”

Infinite Loop, Cupertino, CA 95014, and bring to your attention ongoing investigations involving multiple state and federal agencies as well as International investigations pertinent to these matter.

I. Prior SEC Iviewit Complaints

First off, I would like to take a moment to inform the SEC that the Iviewit Shareholders and I have patience but it wears thin on several prior SEC Complaints already filed in the Iviewit¹/Eliot Bernstein matters dating back almost a decade. Whereby since filing a multitude of complaints, we have not heard a single thing back other than confirmation that the information was received and being investigated. Several recent news reports and congressional investigations have shown that the SEC has destroyed and mishandled thousands, perhaps more, investigations over this same period of time, including two high profile cases, the Madoff and Stanford Ponzis, directly related to the Iviewit matters and the central conspirators in my Intellectual Property theft claims, the law firm of Proskauer Rose, LLP. Where Proskauer Rose is a central conspirator involved in the claims involved in an Iviewit/Eliot Bernstein ongoing RICO and ANTITRUST Lawsuit legally related to a Whistleblower Lawsuit by a New York Supreme Court Attorney Disciplinary Committee Attorney, Christine C. Anderson, Esq. in Federal court.

The first high profile case that directly relates to the Iviewit/Eliot Bernstein Intellectual Property thefts and securities frauds reported already to the SEC, is the ongoing investigation into the Sir Allen Stanford “Ponzi.” Members of the SEC who have been involved in the Stanford “Ponzi” include Thomas Sjoblom, a former Proskauer Rose partner who was found in a Miami airport hangar teaching Stanford employees how to derail SEC and FBI criminal complaints and more.

own press release. What has also become apparent is that the SEC wholly mishandled these two cases for years, whereby the SEC may have even colluded through these rogue agents, some lawyers from Proskauer and other Iviewit Defendant firms, in order to derail the investigations into the matters, as illustrated below.

A list of prior related Eliot Bernstein/Iviewit SEC and US Federal Agency complaints follows:

- Bernard Madoff – Contacted members of SEC and Fed Agencies involved in NY Legal actions of relation to “Made-Up” Madoff scheme and gave evidence to show that it was not a Ponzi scheme but in fact a Money Laundering Scheme for Proskauer Rose to launder money they have stolen from their clients and was Iviewit royalties illegally converted.
- Allen Stanford² -

² The SEC should also take note that at Inventor Bernstein’s father’s estate, there are several Iviewit RICO and ANTITRUST defendants now directly entwined in the estate of Simon L. Bernstein and one of the central assets in addition to the second largest shareholdings in the Iviewit Companies and Patent Interests, is monies invested in the Allen Stanford Banks. Proskauer Rose has already submitted document exhibits in the recent Will for Simon L. Bernstein of Boca Raton, FL already submitted to that court. The estate planning firm for Simon L. Bernstein, Teschler and Spallina has recently, December 21, 2012 made claims that monies are missing or lost in the transfer of assets from the former Stanford accounts that passed on information and belief through to JP Morgan and Oppenheimer accounts. This may involve further Securities fraud relating to the Allen Stanford matters and since it correlates with the above referenced complaints against Stanford and Madoff and Proskauer involvement in Iviewit, this attempted misappropriation of securities must immediately be investigated by the SEC as part of their ongoing investigations into Stanford.

It should be noted here that while Simon L. Bernstein had a small fraction of his investment portfolio in the Stanford CD’s being investigated by the SEC, the bulk of his investment in Stanford was in the likes of Treasuries, Blue Chips, Bonds, Goldman Sachs Stocks and other sound securities, etc. On information and belief, these funds were mostly recovered but now may be missing and where it is believed that Simon Bernstein’s estate remains in litigations to recover the CD funds of several million dollars. It is the other non CD’s securities that are presumed missing or lost in the transfer at this point, but Complainant herein requests the SEC to secure all records relevant to ALL accounts that Simon Bernstein held at any of the three institutions, Stanford, JP Morgan and Oppenheimer to further analyze any missing securities lost in transfer. Please also include all the records of any Bernstein family member whom had accounts, as on information and belief he had accounts for his wife, children and grandchildren. It should be noted that Iviewit/Eliot Bernstein have filed Motions to be

All in efforts to steal the technologies and not pay the royalties to the True and Proper Inventors, Investors and Shareholders of the Iviewit companies.

The SEC's ONGOING failures to take action in the Iviewit matters is partially the cause of the ongoing violations of rights of the Iviewit shareholders and inventors and shareholders of major leading US companies, whose executives have stolen these technologies and failed to notify shareholders of the liabilities. These crimes aided and abetted by what appear rogue agents in the SEC (mostly from Porksour Rose law firm, strangely at the center of all these SEC scandals and failures) and all tie to the Iviewit TRILLION dollar technology thefts. This intentional failure to investigate the Iviewit SEC Complaints makes the failures of the SEC in the Stanford and Madoff Ponzi pale in compare, as Madoff and Stanford are merely a small portion, the money laundering component, of a far larger RICO Criminal Cartel described in the Iviewit RICO and ANTITRUST lawsuit in Federal Court.

Inventor Bernstein, like Markopoulos in Madoff, has filled the SEC with volumes of evidence that have been intentionally overlooked to obstruct justice, allowing the Cartel's activities to instead flourish with government cover. A cartel composed of large US law firms using legal clout and using legal degree to subvert a variety of government agencies in efforts to stave off prosecution against the Criminal Cartel Law Firms they work for, including the meltdown of world markets with scienter. These criminals cloaked as Attorneys at Law, as described by Hero Whistleblower Christine Anderson, come in all shapes and sizes, including Judges, State and Federal Regulators, Prosecutors, DA's, etc. and all have one thing in common, to subvert justice from trying them for their crimes and turn Whistleblowers against them into criminals instead. We are hoping this reign of insanity has ended and henceforth the SEC will follow proper legal procedure in the handling of these complaints and prosecution of those responsible.

II. Apple New SEC Complaint

Now on to the current complaint against Apple and to begin with first some breaking news.

Re: Complaint - Regarding Apple Inc. (NASDAQ: AAPL) and Possible Trillion Dollar Fraud on Apple Shareholders and Others

“This was a very difficult case,” Steve Bauer, a partner at Proskauer Rose LLP, said in an e-mailed statement. “It required us to take the jury back to 1994-1998, when these technologies were first invented.”

Here again, we have Proskauer working on converting royalties from the Iviewit inventions and converting these monies from Iviewit Shareholders (including the Small Business Administration) to themselves and what is happening to shareholders as these technologies are transferred in these shell suits. Inventor Bernstein invented the technologies referenced above wholly, or in part with others at Iviewit and where Proskauer was Intellectual Property counsel to Iviewit for protecting these same Intellectual Properties relating to scaling images and videos, as those described in the above mentioned litigation and article.

This entire patent litigation between Apple directly involving central Iviewit RICO and Antitrust Defendant Proskauer, as opposing counsel, with Sewell and Iviewit RICO Defendant, who switched from Intel General Counsel to Apple General Counsel immediately after receiving the Iviewit SEC complaint against him at Intel. Sewell is now representing Apple in the related Iviewit matters but will not return calls or faxes to have Iviewit representatives speak with either himself or non conflicted counsel. Sewell’s activities should also be viewed by the SEC as possible further fraud on shareholders of both companies, in efforts to transfer Intellectual Properties through fraudulent litigation while hiding the impending liabilities, which began immediately after Apple Inc. was noticed of their liabilities in Iviewit/Eliot Bernstein matters. This type of illegal technology transfers, which may be occurring on insider information, greatly affects share prices of Apple and may have catastrophic effects on Apple investors and others with exposure to the risk. These transfers occurring after Apple failed to even respond or meet with Iviewit/Eliot Bernstein regarding these events after notice of their liabilities, including notification of criminal allegations against SENIOR EXECUTIVES OF THE COMPANY. Apple has failed to respond to Iviewit’s attempts to contact their counsel, Sewell and other executives, notifying them of the alleged criminal misconduct of Officers of the company and Intellectual Property crimes leading to this complaint. Of course, as evidenced herein, Sewell also during this time has been alleged to have committed “Insider Trading” at Apple.

- **Exhibit A – Notification by Iviewit of Apple Liabilities**

Since notification that an SEC complaint would be filed and opportunity to discuss and rectify the matters if possible, Apple Inc., has become involved as a Defendant in Lawsuit against a blogger who has been exposing the Iviewit story, Crystal Cox, the lawsuit is evidenced herein as Sewell may be the backbone of this corrupt attempt to silence world famous Investigative Blogger Crystal Cox and the hundreds of blogs exposing the Iviewit crimes and postings of Sewell’s SEC complaints and more,

this time with the aid of another group of rogue criminals disguised as Attorneys at Law and Judges, this time the accomplices come from the Pornography law industry.

Exhibit Crystal Cox Case

Apple is a primary wrongdoer as a named Defendant in an ongoing Trillion Dollar international RICO and ANTITRUST Lawsuit involving the theft and fraud of Iviewit's Intellectual Property rights as further set out herein.

The frauds reported herein that impact Shareholders and others, include but are not limited to, the failure to disclose and report to Shareholders and Auditors both the RICO Lawsuit and the Intellectual Property infringement, in direct violation of various SEC laws and rules including but not limited to FASB No. 5 requirements for disclosing liabilities and more. Merely one claim in this lawsuit involves the attempted Murder upon my family by an Iraqi style car bombing that blew up three vehicles in addition to mine during the early phases of the high stakes corporate theft and fraud of my Intellectual Property rights. Notably, federal Judge Shira Scheindlin referred to this RICO as a case involving Murder that has also been marked as legally "related" by Scheindlin to an ongoing Federal Whistleblower case of Christine C. Anderson, Esq., a former New York Supreme Court Disciplinary Department Attorney⁴.

At this time, as noted in my Feb. 2009 letter to the Office of the US President Barack Hussein Obama II and the US Attorney General Eric Holder

I wish to bring to your direct attention the identities of several federal offices already involved in this ongoing national and international Intellectual Properties theft and fraud.
