### NAR - the Ultimate Wolf in Sheeps Clothing

**Time to Hold NAR Accountable  
to Those Code of Ethics  
that are Simply Gibberish  
they make Newbies Swear to  
But have No Intention  
or System in Place to  
Make this REALLY Happen.**

**Time For the Truth About  
the National Association of Realtors.**

**the National Association of Realtors is a Hoax.**

NAR is NOT of a "Higher Standard" as they Claim to Be.

NAR does not Provide Consumer Protection in ANY way.

The **National Association of Realtors** NEEDS

you to REALLY buy into the Illusion that they  
are the **"Voice of Real Estate"**  
that way you will Simply not know that you can use  
a Real Estate Broker that is NOT Part of the  
Real Estate Cartel known as  
**National Association of Realtors.**

**And You Believe that an NAR Member Offers you  
More Protection in your Real Estate Transaction  
When In Fact that is a Flat Out Lie.**

NAR is so Engrained in your Life that ALL of you Use  
the Word **"Realtor"** for the Words **"Real Estate Agent"**  
though NAR tells me that is Illegal. Law Books Do it, you Do it  
But NAR wants to STOP me from Doing it.

The National Association of Realtors  
Violates Anti-Trust Laws, Violates Mortgage Laws,  
Violates RESPA Laws, they pay Attorneys to  
Advise members at the State Association Level  
that is Information Biased on What NAR Needs  
to be the Course of Action, to Keep NAR in Business.

Even to the Point of Convincing Members they  
are doing something Illegal when they try and  
benefit the Real Estate Consumer.

NAR Pushes State Real Estate Governing Agencies  
to Make E and O insurance Mandated -  
when in FACT this E and O insurance is What Enables  
the Realtor to Legally Committ Fraud and  
there is nothing you Can do unless you have  
BIG Money and a WHOLE lot of Years to Fight.

The National Association of Realtor IS NOT the  
Voice Of Real Estate. NO WAY.

6 Million in 2012 to Lobby, and this is not for  
Consumer Rights, or Real Estate Protection in your  
Transaction, this is to keep NAR in Business.

**No More Blind Justice**

**NAR Provides NO  
Protection for Real  
Estate Consumers.  
There is NOT One Good  
Reason to USE an NAR  
member in your Real  
Estate Transaction.**

Yes SOME Realtors are the  
Good Guys and Gals.. **in  
FACT Most are ...** But So  
What.. **if NAR cannot stop  
the Bad Realtors** and  
they usual make the most  
money in a particular town  
or area ... well then the  
Good Realtors can't do  
business... YOU Lose.

Time for NAR to Be  
Accountable for the Real  
Estate Consumers whom  
they have Beaten Down,  
Neglected, **Made Billions  
from and Offered NO  
PROTECTION what so  
ever for Far TO LONG.**

## File a RICO Lawsuit Against NAR, they continue to lie year after year and YOU the Real Estate Consumer Pays the Price

"NAR reaffirms they have no credibility by reporting false increases in sales

It's no secret that I don't particularly like the practices of the NAR. They consistently embarrass themselves and their members by putting out false and misleading data and press releases. Credibility comes from telling the truth, even when that truth may be unpopular or contrary to one's own interests. The NAR has consistently lacked credibility as they have proven unwilling to say anything negative about the prospects for real estate despite a massive decline in sales volumes and resale prices.

They **consistently told buyers to purchase homes as sound investments** when prices were inflated and falling.

From 2007 through 2011, prices were too high in most markets to warrant purchasing for cashflow investment purposes, and with falling prices, **there was certainly no reason to buy for wealth building** from appreciation.

Despite these obvious facts, **the NAR still urged everyone to buy**. It's a self-serving manipulation designed to generate commissions at the expense of hapless buyers. Shame on the NAR.

Source of NAR Lies. Do not Use a Real Estate Agent in your Real Estate Transaction.

## STOP the Cartel of NAR - they Force Agents to Join them or Boycott the Agents.. STOP the Tirade of NAR

"In Greensboro, NC, the local realtor association has notified real estate firms, that are association members, that brokers employed by those firms that are not members of the association can no longer list properties. When my bic told me this I about fell over.

She then told me that I would now be in a secondary company with her and my commission went from about 95% to 50-50 because I am not an association member. I spoke with an attorney and this amounts to what he called tortious interference. He told me I would have a good case. Unfortunately I cannot afford to sue.

If you have any suggestions I'd appreciate it. I love your site. Keep up the good work. I love the new realtor commercials on tv. If the public only knew how the NAR's lobbyists in DC were the very ones screaming at congress to get banks to make more home loans starting back in the 90's.and up till the crash.

Now they say they are there to save the American dream of home ownership. What a bunch of criminals. It's only appropriate they should be headquartered in Chicago. In my state it has pretty much become something akin to forced unionism. Keep up the fight and hopefully we will prevail one day.

Reid Thibodeaux

Yes Folks NAR is the reason for the real estate collapse, and they said buy buy buy and no accountability, then NAR lobby for more loans that benefit them... STOP the NAR Cartel..

## Real Estate Consumers HAVE No Rights. Especially when you Use an NAR member as the Forms are Designed to Protect Realtors and NOT Consumers.

This article, this lawsuit is true. The MLS, Brokers, Franchise do discriminate against brokers that charge less commission. I was boycotted in my first year for charging 5% commission. The real estate industry is set up to prey on real estate consumers. Your real estate listing is content for NAR and their website so they can place ads and sell ad space. NAR.com is owned in part by the same company that owns Cendant, Sotheby's, Coldwell Banker, Century and ERA.

**Do NOT Use a Realtor in your Real Estate Transaction.** The E and O insurance is to protect the Realtor, the "Forms" are to protect the Realtor and the Real Estate Consumer has no rights. '

This class action lawsuit is what happens in many MLS's and I would even dare to say all MLS's, I have been in many of them and been boycotted for charging less money and giving Buyer and Seller Rebates.

"Pennsylvania homeowner Thomas Logue filed a class action lawsuit in April 2010, alleging that a group of real estate brokerages and a local MLS (and its board of directors) conspired to keep broker commissions artificially high by limiting competition among

companies, according to court documents. The area real estate companies stifled competition by keeping some rival businesses from effectively marketing properties, blocking discount brokers from listing in the MLS, alleges the suit, which Logue's attorneys say caused him to pay more than was necessary to list his home in 2006.

This summer, a motion for preliminary approval of a settlement in the case was approved by the judge after denying a motion to dismiss by the defendants, laying the ground for this week's approval of a settlement in the amount of \$2.4 million, of which Logue's attorneys will receive \$1 million and Logue will receive \$10,000. Court documents do not reveal the number of buyers that will split the remaining \$1.39 million.

Logue filed the lawsuit against West Penn Multilist Inc., Howard Hanna Real Estate, Coldwell Banker Real Estate, Freeman Realty, Northwood Realty and Prudential Preferred Realty regarding purchases through these companies between February 13, 2005 and February 13, 2009.

Anti-trust laws were established in the 1800s to protect consumers from cartels and monopolies, which this case showed was in play on the Pennsylvania real estate scene. MLS companies have long struggled with business rules that dictate what is legitimate and what is not, and in this case, the judge agreed to this \$2.4 million settlement alleging the brokerages and the MLS, along with their board of directors blocked discount brokerages.

## David Carr, New York Times: Take A Deeper Look at What the New York Times, David Carr and Forbes is Saying and Support the Victims and NOT the Criminals.

David Carr and Kashmir Hill are NOT Telling the Whole Truth and Nothing But.

Do Not Simply Believe the New York Times, [David Carr](#) and Forbes because they are bigger than me, and more Established. [David Carr](#) of the New York Times has an agenda to keep down New Media and [David Carr of the New York Times](#) has an Agenda to keep Woman in their place.

[David Carr of the New York Times and Kashmir Hill](#) of Forbes Seem to think it prudent to NOT print my side of the story regarding the now "infamous" email.

And [David Carr](#) and [Kashmir Hill](#) have no accountability, and [David Carr](#) keeps attacking my character though a Judge and Jury already has "punished" me. Why? Is [David Carr](#) the Eye for an Eye Police? Well this is to attack all bloggers, and to avoid doing research on the real story, of the real crimes. [David Carr](#) is a Lazy, Ignorant Journalist.

[David Carr](#) and Kashmir Hill get to claim protection under laws that don't apply to bloggers. So [David Carr](#) and [Kashmir Hill](#) can legally say what they want about me,

[David Carr](#) and [Kashmir Hill](#) simply take the word of [Kevin Padrick](#) and his Attorney David Aman, who were both involved in the Summit Bankruptcy. David Carr and [Kashmir Hill](#) need to discredit me so that my accusations are not taken serious. Thing is the Department of Justice, FBI, and all other authorities ignore the real details of the bankruptcy courts and guys like Kevin Padrick have no oversight what so ever, even though they claimed they did. The Summit Bankruptcy should be VOID from the Start. Kevin Padrick worked for the company that went bankrupt to help them Form a Plan of Reorganization, this is a signed contract between Summit and Obsidian Finance Group and then Kevin Padrick was a Trustee working on the other side, against them.

[David Carr](#) and [Kashmir Hill](#) seem to NOT want to Read anything and claim that [Kevin Padrick](#) has no one else that has had an issue with him, and has not been in any other similar situation. The Truth is the Summit Bankruptcy had an Objection to the Fees filed by several insiders, in this there were emails between the Department of Justice Trustee, between [David Aman](#) and Robert Opera - one of the attorneys involved and Opera suggested issues of deferred gain, there was also tax exhibits and tons more and I had read this over and over, it was a public document and had been online for years, the court would not accept this as a source even though it was a source and that was the truth. The Truth seemed to be irrelevant. Here is the Objection to the Fees in the Summit Bankruptcy.

So instead of Investigating the Crimes I write about ,and there are tons, they investigate me. They are scouring my bank accounts, calling my clients, setting me up for alleged criminal activity and basically sending a lynch mob after me, and nothing I can do really but wait for it. As [David Carr](#) continues his rampages to discredit me and even have me a lesson for teens to talk about in New York Schools, all the while Ignoring my side of the story even though he talked to me.

And David Carr ignores that I am not the one accusing Kevin Padrick of these Indiscretions and action, I am simply writing about those who are.

There will be much more on other people, companies that have issue with Kevin Padrick and Obsidian Finance Group at the Link Below, I will add more over time, though David Carr says I am the only one with a Beef regarding Kevin Padrick and Summit. I have tons of documents and information, have for YEARS.

There is lots more information on Summit then Me, I simply got their story found in the search engines. I hope to Sue Forbes and the New York Times for Endangering my Life and Defamation. As regarding their version of that email they are accusing me of a crime, giving me no Criminal Attorney and not posting my side. There were surrounding emails and it was a "Cease Fire" "Negotiation" between 2 attorneys as I was Pro Se. There is lots more to it. However David Carr and Kashmir Hill are protected to ruin my life further and gather a lynch mob for something the "bad guy" told them happened, that did not happen quite that way.

Note: Any documents you cannot find on this page and want email me Crystal@CrystalCox.com. My main source was the Objection to the Fees in Summit and Mark Neuman, Summit Principals Deposition if you want those and can't find them email me. I was always telling the victims story and the angle David Carr of the New York Times is Running With, as Well as Forbes is FLAT Wrong.

I will also soon be posting my story in an easier to understand format, also I will be making demands of the New York Times and Forbes, and at some point file lawsuits against them. I have tons of information, videos and documents if you want the Truth or you can just run with Forbes and New York Times, but remember even if I was guilty of a crime, which I am not, but if I was, then how would that have anything to do with if that post was true or NOT?

Think for Yourself.

Do your Homework.

.. NEVER Ever Believe the discriminating illiterate David Carr and Kashmir Hill ..
