Heidi,

Here is the info for Hank Powell from Crossbow Ventures. I have copied him above to make the introduction.

iviewit has undergone a restructuring of their business from an encoding focused business to a technology licensing business focus over the past 4-5 months. They are in the process of establishing a new executive team to handle this 'new' direction and have been working on the new business plan. They have indicated that we should have the revised plan next week.

They currently are finalizing a contract with WB Online to provide encoding services as a hold over from our original collaboration, and as a showcase for the technologies and patents.

Their site www.iviewit.com contains good demonstrations of the zooming and video encoding technologies. I have also copied the inventor/founder Eliot Bernstein, who I will ask to provide some specific links on the site to see the best representation of their work and technical capabilities.

Their patents are pending, but have received favorable opinions from people such as Ken Rubenstein on the merit of the patents, as well as thorough review by Greg Thagard and myself.

Let's talk further after you see the business plan and connect with Hank.

Thanx,
David

Hank Powell
