D.M.D., P.A.

Practice limited to Prosthodontics

To Whom It May Concern:

Mr. Eliot Bernstein is a patient of record in my practice. On January 23, 2017, he fractured a metal reinforced bridge for his lower arch. The bridge cannot be repaired and thus a new bridge had to be sent to the lab for fabrication. As a result, the patient has been without any prosthesis, which definitely has affected his function, esthetics, and tempromandibular disfunction.

Mr. Bernstein has been in treatment with me for full oral rehabilitation as well as for TMD. His TMD symptoms have been controlled with muscle relaxers and small doses of narcotics periodically.

Should you have any further questions, please do not hesitate to contact me.

Sincerely,

Dr. Ronik Seecharan
