RE: **BARBARA AND HELEN STONE**

Dear Judge Roads,

My name is Eliot Bernstein, I have known Barbara Stone, Esq. for about 5 plus years and she is an extraordinary person. I met Barbara because we have a major problem here in the State of Florida, where Judges Attorneys and Guardians are working together to rob estates and trusts, often using predatory guardianships to remove legal rights of the victims and isolate them from friends and family while using the courts to facilitate enormous fees for those involved who also work to take properties through a variety of fraudulent misconduct. The problem has become epidemic here in Southern Florida and throughout the United States and only recently has national media drawn attention to this most serious crime.

Recent exposure in the Palm Beach Post via reporter John Pacenti's explosive series, "Guardianship – A Broken Trust" <http://www.mypalmbeachpost.com/guardianships-colin-savitt/> reveals how these schemes have been working and destroying families lives her in Florida. Also, an Ad from AAAPG [www.aaapg.com](http://www.aaapg.com) (Exhibit 1) is attached hereto that also points out exactly how serious these crimes are and the growing number of victims. There are also reports of the court orchestrated abuses from FACT - Families Against Court Travesties <https://factscourtwatch.com> which is affiliated with NOW – National Organization of Women (Exhibit 2.)

Helen Stone was a Competent Elderly Woman who became incapacitated when she was put in a FINANCIAL GUARDIANSHIP that quickly turned into an unnecessary MEDICAL GUARDIANSHIP and a feeding tube was inserted into her that has kept her incapacitated, bedridden and immobile for several years now. Helen Stone was stripped of her Civil Rights so she cannot fight back and she has been isolated from her loving daughter Barbara who has fought the corrupt system operated by the Judges,

Attorneys and Guardians who went in and stole her entire estate in fraudulent billing schemes, predatory guardianships and more. Generations of assets, 401k's, social security money, jewelry, cars and even her home has been pilfered and as the assets are diminished they put her on ever increasing toxic medications in higher and higher doses, which in some cases cause "Sudden Cardiac Death." One such genocidal toxin is Seroquel the number one drug and I believe Helen Stone is on this as well as other destabilizing drugs.

Barbara's mother is in a Predatory Guardianship and she has fought to save her mother and free of her the guardianship, even offering to care for her personally or pay for top care in a private facility, yet the court refuses to let her be with her daughter. The Judges , primarily Judge Michael Genden of Miami/Dade, have retaliated and even stated in Orders "I am going to teach you a lesson," which is a direct threat and where when that did not work to stop her pursuit of her mother's freedom they repeatedly arrested her for her actions directly related to trying to get her mother free through the Court system.

If you send Barbara back to Miami I believe you will be putting her life in danger. The Judges would like to take her Freedom of Speech away, deny her due process in the courts, deny her mother further due process and stop her exposure of their racket to the press and authorities and it appears the only way to stop her may be to take her life. I have taken Helen Stone's case personally to US Federal Authorities and you may contact me directly for further information regarding these efforts on her behalf. Barbara was not a part of that process as she was afraid that this would cause further retaliation on her and her mother.

I ask you to please protect Barbara and not allow here to be extradited to Miami.

Please call me if you would like to speak with me. Barbara has employed people to refurbish homes, she is a pillar of the community please protect her and she is an Attorney at Law.

Florida is home to over 4.5 million retirees and baby boomers who seek a sunny place to spend their golden years. But, even as the flow of seniors in the “Silver Tsunami” increases, retiring to Florida as well as other “retirement States” has become a nightmare as the wealth accumulated by honest, law abiding, hard working Americans is being systematically extorted in thousands of fraudulent guardian and probate proceedings every year.

This devious scheme mercilessly deprives retirees of their assets inheritances and constitutional rights with racketeering lawyers, judges, guardians and complicit state agencies.

Probate/Guardianship Courts all across the State are used to financially exploit, isolate and often physically abuse elderly adults with assets while family members who object and expose these crimes publically are viciously retaliated against and isolated from their loved ones. And there is no reason to expect that anything will change without Federal intervention.

Billions of dollars have been extorted from our loved ones in this inconceivable crime that is hidden in secrecy in the Courts using sequestered files, “Inside Clubhouse” Lawyers, massive billing fraud, persons taken into Guardianship with no due process and blatant unchecked conflicts of interest and unfit, complicit Judges.

Before another victim falls into the abyss of these court based predators, we urge you to learn more at

## CORRUPTION, COLLUSION AND CRONYISM IN PBC COURTS

Thanks to Palm Beach Post's reporter John Pacenti for uncovering some of the **corruption** in the Guardianship section of the Palm Beach County court system. It is **endemic**, in both the Guardianship and Family Court divisions. **Families Against Court Travesties, Inc. (FACTS)**, a non-profit organization, has been monitoring these courtrooms for over 13 years and has evaluations of some of the judges in these divisions. Because of Mr. Pacenti's investigative reporting, Chief Justice Colbath has said he would overhaul the guardianship system. Has he?

**The Family Court system needs overhauling as well.** Because of court appointed professionals and the expensive, connected attorneys who recommend them, children are being torn away from good, loving parents and irreparable damage is done to the entire family.

**Those involved in the Guardianship collusion are:**

**Judge Martin Colin** whose wife Elizabeth Savitt's cases went to their friend Judge French, who appeared to rubber stamp her overreaching fees and those of her associates.

**Professional Guardian Elizabeth Savitt** (Judge Colin's wife) who owns a guardianship business that appeared consistently before Judge French. According to the Palm Beach Post, she took fees without court approval, double-billed, overcharged and encouraged unnecessary litigation.

**Judge David French** (close friends with the couple) who apparently did not disclose his friendship with Savitt to opposing lawyers, as required.

**Chief Justice Jeffrey Colbath** who allowed Judge Colin to remain in the Guardianship Division for 4 years after Savitt became a registered Guardian, while other judges rotated regularly. While Justice Colbath was in Family Court several years ago, FACTS Court Watch was often called due to many complaints against him. Having him as Chief Justice is like having the fox guard the chicken coop.

**These people are not above the law and need to be prosecuted!**

**These families must receive justice!**

**The corruption in these courts has to end!**
