FAIR MARKET VALUE APPRAISAL REPORT

January 22, 2013

Theodore Bernstein
880 Berkeley Street
Boca Raton, Florida 33487

Dear Mr. Bernstein,

At your request, Robert Hittel and Diane Marvin conducted an appraisal inspection and of the personal property located at 7020 Lions Head Lane, Boca Raton, Florida, and Robert Hittel conducted an appraisal inspection at 2494 South Ocean Boulevard, Unit C-5, Boca Raton, Florida. The property was represented as belonging to the estate of Simon L. Bernstein. The intended use of this appraisal is for the purpose of estate settlement.

This appraisal is to be used only for the function of estate settlement. Any other use of this appraisal renders it null and void. This report is intended for use by you, my client, your agents and by the Internal Revenue Service. Use of this report by others is not intended. In accordance with the *Uniform Standards of Professional Appraisal Practice* (USPAP), this report makes use of the Self-contained Appraisal Report option.

In this appraisal assignment I developed an opinion of **Fair Market Value**.

Treasury Estate Tax Regulation § 20.2031-1(b) defines fair market value as: "The price at which the property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of relevant facts. The fair market value of a particular item of property includible in the decedent's gross estate is not to be determined by a forced sale price. Nor is the fair market value of an item of property to be determined by the sale price of an item in a market other than that in which the item is most commonly sold to the public, taking into account the location of the item whenever appropriate."

The total FAIR MARKET value of the appraised items listed is \$51,135.00

Relevant dates associated with this assignment include the following:

- Date of Inspection: January 8, 2013
- Effective Date of Appraisal: Value opinions are effective as the date of death, which you stated was September 13, 2012
- Date of Report: This report was prepared and signed on this date, January 22, 2013

Scope of Work

The scope of work employed in this assignment, including the report content and the detail of that content, was dependent upon the needs of the client, the intended use of the report, the definition of value that we used, the effective date of the report, and the subject property's value-relevant characteristics.

- We personally inspected the items that are subject of this report to determine their value-relevant characteristics.
- While on site, we documented the relevant information in writing and took detailed high-resolution digital images of the property.
- We completed the necessary value research for past comparable sales and items currently offered for sale by searching Internet websites including, auction houses, completed E-bay sales, and specialty dealers.
- Value research also included making use of relevant resource books and value guides along with personal observations made at secondary market retail establishments, and local auctions and estate sales.
- We analyzed the market data, making adjustments as necessary for differences in value characteristics between the comparable and subject property, and arrived at our final opinion of value.
- Markets analyzed appeared stable: values were neither falling nor rising.
- For items of nominal value, for which extensive research is neither necessary, cost-effective, nor required by the client, minimal value research was conducted.
- We did not list foodstuffs, home office supplies, consumables, clothing (other than furs and appreciable articles of clothing having collector appeal), or items of personal nature such as family photographs, health aids, personal hygiene products, etc.
- No one provided us with significant assistance (either appraisal or otherwise) in the development of my opinions, analysis, or conclusions.

Approach to Value

After due consideration of the cost approach and the income approach, the sales comparison approach to value was employed to determine the fair market value of the subject properties. In the sales comparison approach, the most relevant market is researched to locate comparable items which have sold in the past or which are currently being offered for sale. Adjustments in value are made to reflect differences (if any) in value-relevant characteristics between comparable properties and the subject properties.

The appraisers have relied on information supplied to them by the client, concerning undisputed title to the objects, acquisition history and purchased price, etc. The client in accepting this report acknowledges that the information supplied by him has been accurately transcribed and utilized by the appraisers. The client, in accepting this report, also acknowledges that no significant information has been withheld from the appraisers which may have caused the appraisers to arrive at a valuation conclusion different from the one(s) stated in the report, had such information been known at the time of the report's preparation.

Value conclusions were based on the appraisers' opinions of the items that were partially formed on critical assumptions based on information provided to the appraiser by the client. Critical assumptions are assumptions, which could be contrary to fact and which, if contrary to actual fact, could result in a different value conclusion.

Items were generally found to be in good condition and of good quality. Any alterations from original condition or damage are so noted in the appraisal report. Ordinary wear and tear common to these pieces is not noted. Quality, condition and desirability affect the appropriate market where items would be purchased by the public. This appraiser has considered several markets for the items of personal property.

All notes used in the preparation of this appraisal along with a copy of this appraisal are retained and are confidential. No one will have access without your permission. With the exception of you, my client, possession of this report or its copy does not carry with it the right of publication, nor may this report be used for any purpose by anyone other than you or authorized users without my previous written consent. If this report is reproduced, copied, or otherwise used it must be done so in the report's entirety including the cover document and all attachments. I am not responsible for any unauthorized changes to this report.

This report has been prepared, in conformity with the current version of the International Society of Appraisers Appraisal Report Writing Standard and Code of Ethics.

No change to any item in this report shall be made by anyone other than myself. Should, in conjunction with this appraisal, additional services of the appraiser be requested by the client, his agent, or his lawyer, or the courts (such as for added time researching for other value purposes, pretrial conferences, court appearances, court preparations, etc.), compensation for same time shall be at the customary hourly rate charged by the appraiser at that time.

The appraisers have based descriptions of the appraised objects on their professional experience in the field of antiques and residential contents, and on information supplied by third parties who are named in the report, when appropriate. Consequently, the appraisers believe that the descriptions of the appraised objects are accurate and correct. However, additional research by scholars in the field, at some point in the future, may cause the appraisers to alter their assessment of the objects described in the report. While every effort has been made by the appraisers to ascertain the accuracy of the descriptions of the appraised objects and their attributions, this report is not intended to serve as a certificate of authenticity or warranty.

Unless otherwise stated herein, the appraisal is based only on the readily apparent identity of the items appraised. In my opinion, no further guarantee of authenticity, genuineness, attribution, or authorship is required.

The appraisal values are based upon the whole interest undiminished by any liens, fractional interests, or any other forms of encumbrance. Mere possession of this appraisal is neither an indication of nor a certificate of title of ownership. Ownership and ownership interest at the time of donation were represented to me by you, my client, and no inquiry or investigation will be made nor is any opinion to be given as to the truth of such representation. There are no known prior sales of the subject property that have occurred within a reasonable time preceding the effective date of this appraisal.

There are no known current agreements of sale, validated offers, third-party offers to sell, options, or listings of the subject property as of the effective date of the appraisal. There are no known prior sales of the subject property that have occurred within a reasonable time preceding the effective date of this appraisal.
