**FLORIDA AND OTHER COURTS PREY ON OUR
DISABLED AND ELDERLY LOVED ONES
WHO ARE HORRIBLY ABUSED
AND FINANCIALLY EXTORTED**

**BY PREDATOR PROBATE JUDGES AND GUARDIANS IN A
MASSIVE FINANCIAL FRAUD RACKET**

Untold thousands of our innocent loved ones are mercilessly railroaded into illegal abusive "for profit guardianships" by judges who, acting unlawfully and in collusion with unlicensed, predator guardians and attorneys, target and isolate vulnerable citizens from their prior lives, their loving families, their homes, their possessions and their very identity to hold them against their will, silenced in chemical restraints, in horrific lock down facilities so as to plunder and drain their assets in a greed driven unlawful "court ordered" fee frenzy.

Self-dealing judges, guardians and attorneys brazenly violate Due Process, Civil Rights, the Constitution, the Americans with Disabilities Act, the Elder Justice Act and Federal and State Statutes that prohibit human trafficking, abuse, financial fraud, discrimination and retaliation.

Family members and honest attorneys are viciously retaliated against for daring to speak out to protect our families and expose the abuse and financial fraud in this racket that flourishes in Florida, New York, Illinois, Ohio, California and many other states. This horror can happen to anyone and your families.

We seek support for an expose of this predatory racket and public awareness campaign and for actions leading to the impeachment of unlawful Probate Judges in Miami and South Florida and throughout the country at the center of these sham courts where the only thing taking place is massive financial fraud by adult predators - judges, guardians and attorneys - working hand in hand to drain and transfer the assets of elderly and disabled adults in a scandalous full-fledged racketeering enterprise where the lives, rights and assets of innocent victims and their families are stolen.

We are a national advocacy group composed of hundreds of victims and family members seeking assistance from constitutional, civil rights and disabilities rights lawyers, advocates and spokespersons and seeking public, media and legal awareness and involvement.

If you or a loved one are a victim, know of one or would like to become involved in our advocacy, rescue, reform and legislative efforts or in the impeachment of judges who act outside the law or if you or your organization would like to make a contribution please contact us at:
