10.04.00 gti - Dallas went well, E&Y company CEGY is making sure systems mesh with the Governments legacy system. Mick is very excited about iviewit as an investment into current projects. sekani will be doing a streaming video for earmyu.com. National guard has libraries of video

8.31.00 GTI -guy and kevin met with them as a referral from virtual ed inc. (Robert Slider) . they do distance learning and web based training services. Broadband services has a subsidiary = Broadband Training Inc. Top projects are the RFP for the Dept of Defense- that is a 650 Million contract finalized Q4 2000, Malaysia Project is also 30-60 days out and is a huge education project for the entire government. We have a letter of intent in Tom's hands and next step is an exclusive partner agreement. Partners include: Vanderbilt Univ, University New Media, Saranoff Corp, FootageNow, American Military University, Sintef Group, Integrated Systems Solutions, Visitalk.com, Fibernet, Electronic Warfare Associates, ViTel Net, Megaxess, Time Domain, Little Planet Learning, Xeta TechnologiesAmerican Defense International, and Ernst & Young.

General Gary Harber - President & CEO
Scott (50% partner)
Tom Pulliam - COO
Van - "Lobbyist / Mkt Strategist - brouth in Virtual Ed.
Robert (Chip) Ames - General Counsel
Tech Team: Mark Barclay-IT Mngr, Bill Syper, Ankur

jk.JFA suggested she call and set up meeting w/ eliot & Guy w/ member(s) of her tech and/or sales team.

Gentlemen,

Per our conversation, the following is the pricing for iViewit to develop the first 2 courses and future courses moving forward that use the same template as approved by Broadband. New course development will be subject to "development pricing" on a per course basis.

Development Course Pricing: \$ 45,000 per course (1st 2 courses, and new courses different from the original template. This will be mutually agreed to upfront on a per course basis.

Additional Course Pricing(Wholesale to Broadband): \$ 25,000 per course (estimated)

iViewit will be creating an "a la carte" pricing schedule by functionality within the next week as the pilot course is finished and approved by Broadband to determine additional course pricing. We would like to understand the time frame for future course rollout to plan internal resource allocation for Broadband related projects. We have been told of the potential of 300 courses based upon our discussions with Jason.

We will be calling you at 1:00 EST tomorrow, Thursday to finalize the terms of our agreement.

Sincerely,

Guy T. Iantoni

Kevin J. Lockwood
